

EXAMINER'S MANUAL

Summer 2004

English: Writing

NEW FOR SUMMER 2004

Several changes have been made to the Standards of Learning Assessment for Summer 2004. Please pay attention to the following:

- The pre-ID Service (labels for student answer documents) is not provided in the summer administration.
- New Scoring Service Identification Sheets (SSIDs or “header sheets”) will be used for the paper-banded bundles of answer documents. An orange SSID sheet will be used with the regular and read-aloud answer documents. A purple SSID sheet will be used for answer documents with special test forms (Braille, large-print, and regular audio).
- Students eligible to graduate by August 31, 2004 with a standard or advanced studies diploma who have not passed the End-of-Course *English: Writing* test have two opportunities to take the test during the Summer 2004 administration. Contact your STC for more information.
- Answer Documents — Make certain that the only answer documents distributed to the students indicate the school year 2004 in the upper left-hand corner of the document. The student demographic information will need to be completed on the front and back covers of the answer document.
- Section E - Race/Ethnicity includes a grid for Native Hawaiians. If applicable, a student may choose to grid either Asian/Pacific Islander or Native Hawaiian. See Section 4.7.1.
- Section U – S-Code, mark this section for students not currently enrolled, but who had sufficient standard credits in 2003 or 2004 to graduate and who are returning to retake the SOL *English: Writing* test for verified credit and/or upgrade a diploma.
- Section Y includes the Retest grid. See Section 6.2.12.
- References to “oral administration” have been changed to “read-aloud administration”. Any form can be used for read-aloud administration. See Section 5.2.1.2.
- There is a copy of the General Assembly Legislation regarding test security in Appendix A. Please review this carefully before testing administration begins.

If you have questions after reviewing this manual, contact your School Test Coordinator (STC).

EXAMINER'S CHECKLISTS

Activities Before Test Administration

- ☐ 1. Carefully read this *Examiner's Manual* as well as any local directions you have been given. Resolve any questions you might have with your STC.
- ☐ 2. Become familiar with special accommodations specified in students' IEPs, 504 management plans, or *LEP SOL Participation Plans* and coordinate with your STC how accommodations will be met (Section 4.2).
- ☐ 3. Read the *Test Security Guidelines* and sign the *Examiner's/Proctor's Test Security Agreement* in Appendix A (Section 4.3).
- ☐ 4. Make necessary announcements about testing to students (Section 4.4).
- ☐ 5. Establish an appropriate setting for test administration (Section 4.5).
- ☐ 6. Determine the need for Proctors/Interpreters (Section 4.6).
- ☐ 7. Understand your division's procedure for completing the student identification information on the answer documents (Section 4.7).
- ☐ 8. Assemble all materials needed for test administration (Section 4.8). Note that some materials are used only for the multiple-choice component, and some are only for the direct writing component.

CAUTION: Before you begin testing, verify that you have the 2004 answer documents for End-of-Course *English: Writing*. Using the wrong answer documents will result in inaccurate scores and will delay delivery of test results.

EXAMINER'S CHECKLISTS

Activities Before Test Administration	<i>inside front cover</i>
Activities During Test Administration.	<i>outside back cover</i>
Activities After Test Administration	<i>outside back cover</i>

1. USE OF THIS MANUAL FOR THE SUMMER 2004 ADMINISTRATION

This *Examiner's Manual* describes procedures that apply to the administration of the End-of-Course *English: Writing* Standards of Learning (SOL) Assessments for Regular-Print Forms as well as read-aloud, Braille, large-print, and audiotape editions. All Test Examiners should follow the information in this manual before, during, and after the administration of the End-of-Course *English: Writing* SOL Assessments. This manual provides the following information:

- test administration dates
- school division responsibilities for SOL testing
- your duties before, during, and after each testing session
- specific instructions for administration of the *English: Writing* multiple-choice component and direct writing component

The SOL *English: Writing* test is administered to students completing high school English courses that have covered the grades 9, 10, and 11 SOL. Students who need to retake the EOC *English: Writing* test for verified credit may also take this test during the summer administration.

2. TEST ADMINISTRATION DATES

The SOL *English: Writing* test has both multiple-choice and direct writing (response to a writing prompt) components that must be administered **statewide** on the following dates:

- July 19 **or** 20, 2004 – multiple-choice component (**main form**)
- July 19 **or** 20, 2004 – multiple-choice component (**alternate form**/second testing opportunity for eligible students)
- July 21, 2004 – direct writing component (**main prompt only**)
- July 22, 2004 – direct writing component (**alternate prompt only**/second testing opportunity for eligible students)

Students scheduled to graduate by August 31, 2004 with a standard or advanced studies diploma who have not passed the End-of-Course *English: Writing* test may have two opportunities to take the test during the Summer 2004 SOL Administration. Contact your STC for more information.

Students who are absent on any or all of these dates are to be provided with an opportunity during the make-up period to take the test component(s) they missed. Your School Test Coordinator (STC) will provide you with more information about how your school will handle make-up testing. Also see Section 7 of this manual.

3. SCHOOL DIVISION RESPONSIBILITIES FOR SOL TESTING

Many school division personnel are responsible for the administration of the SOL *English: Writing* test. These include:

- Division Director of Testing (DDOT)
- School Test Coordinator (STC)
- Test Examiner (Examiner)

A brief explanation of the roles and responsibilities of each of these persons follows:

Division Director of Testing

Each division has designated a Division Director of Testing (DDOT). The DDOT serves as the point of contact between the school division and the Virginia Department of Education. The DDOT has division-wide responsibility for implementation of SOL test procedures.

School Test Coordinator

The School Test Coordinator (STC) is the person designated within each school to serve as the point of contact between the DDOT and the school. The STC is also responsible for ensuring that all procedures required for the SOL tests are implemented within the school and for maintaining the security of test materials. Any questions the STC has regarding the SOL testing are to be directed to the DDOT.

Test Examiner

As a Test Examiner (Examiner), you are responsible for administering the SOL tests according to the procedures contained in this manual and for maintaining the security of SOL test materials. The remaining sections of this manual contain more specific information about your duties as an SOL Examiner.

4. SPECIFIC DUTIES OF EXAMINERS: BEFORE TESTING

4.1 Read All Materials

Carefully read this *Examiner's Manual*, your students' IEPs, 504 management plans, and *LEP SOL Participation Plans* (if applicable), and any local directions you may have been given. Your STC will provide you with local instructions about the specific directions for administering the End-of-Course *English: Writing* test in your school division.

If you will administer the SOL tests to a student who is homebound, your STC should explain the procedures for maintaining security of all test materials. Sign-in and sign-out procedures and security forms must be used.

Resolve any questions you might have with your STC.

4.2 Become Familiar with Special Accommodations

NOTE

You may skip this section if you are not testing students who require special accommodations.

Before testing, you should become familiar with special accommodations specified in students' IEPs, 504 management plans, or *LEP SOL Participation Plans* and coordinate with your STC how accommodations will be met. You should also be familiar with the procedures that must be followed when providing accommodations to students. These are described in detail in Appendix C, *Guidelines for the Participation of Students with Disabilities*.

Some accommodations allow a student to take the test in a different way without changing what the test is measuring. For the purposes of this manual, these are referred to as accommodations that maintain standard conditions, or standard accommodations.

Accommodations that significantly change what a test is measuring and do not maintain standard conditions of the test are referred to in this manual as nonstandard accommodations. This type of accommodation should be used **only** if the IEP or 504 committee agrees that the student requires such an accommodation(s) in order to participate in the SOL assessments. Scores resulting from a nonstandard accommodation are accompanied by an explanation that these scores resulted from a nonstandard administration.

Accommodations should be those the student generally needs and uses during classroom instruction and assessment as identified on the student's IEP, 504 management tool, or *LEP SOL Participation Plan*. Accommodations shall not be used only when participating in the SOL assessments. The use of

an unfamiliar accommodation during testing may have a negative impact on the student's performance.

NOTE: Questions about whether accommodations not listed in this manual are permissible should be directed to the school division's Director of Testing, who may consult with Department of Education staff as needed.

Before the test administration dates, resolve any questions you might have with your STC, IEP Case Manager, or 504 Coordinator. It is important to check with the STC to make sure necessary Braille, large-print, and audiotape editions have been ordered to provide the required accommodations as stated in students' IEPs, 504 management plans, or *LEP SOL Participation Plans*. Also verify with the STC that any materials and supplies required for accommodations will be available on testing dates.

4.3 Sign the Examiner's/Proctor's Test Security Agreement

Before you will be allowed to administer the Summer 2004 SOL *English: Writing* test, you must read the *Test Security Guidelines* in Appendix A of this manual and **then sign the Examiner's/Proctor's Test Security Agreement**, also in Appendix A. **Note the Virginia General Assembly 2000 legislation regarding test security.** You may sign the original page or a photocopy of it. When you sign this agreement, you are agreeing to exercise necessary precautions and to follow established procedures that will help ensure the security of the content of all test materials. **You must complete this agreement and forward it to your STC before receiving any test materials.**

4.4 Inform Students of Testing

Make any necessary announcements about testing. Announcements may include reminders for students to bring to the testing sessions sharpened No. 2 pencils and something to read if they finish early. Prepare students for testing by explaining that the results of this test will help determine their level of proficiency in writing.

You may wish to inform students of testing accommodations that they will be provided during administration.

4.5 Establish the Test Setting

In conjunction with your STC, arrange for appropriate physical conditions for testing. In arranging for an appropriate test setting, be sure to consider any accommodations that are specified in students' IEPs, 504 management plans, or *LEP SOL Participation Plans*. Testing rooms should be quiet, well lighted, and well ventilated. Each student should have enough work surface for an open test booklet and answer document, and any materials or supplies required for accommodations. Crowding should be minimized and the seating arranged to discourage students from copying one another's work. You may find it helpful to place a "TESTING: DO NOT DISTURB" sign on the door.

Before testing, remove from the testing site all curricular materials that might influence student performance. These include charts, chalkboard displays, and bulletin board displays of materials related to test content.

4.6 Determine the Need for Proctors/Interpreters and Arrange for Assistance

Testing students in large groups is **not** recommended because testing in smaller groups lessens test fear and anxiety for the student and facilitates your ability to monitor and control the testing session. However, if it is necessary to test a large group of students, discuss with your STC the addition of Proctors to the testing session.

Ideally, it is best that you supervise the testing of no more than 25–30 students on your own. If your group's size exceeds that, try to arrange with your STC to have at least one Proctor with you at the

testing site. A good rule of thumb is to have one Proctor present for every 25–30 **additional** students.

Regardless of the size of your group, if you are the only adult supervising the testing session, arrange with your STC to have another adult within calling distance so that an emergency, such as a student becoming ill, may be handled with a minimum of disruption.

4.6.1 Arrange for the provision of testing accommodations (if applicable)

NOTE

You may skip this section if you are not testing students who require special accommodations.

Interpreters

For some accommodations, interpreters may be required during the testing session. Interpreters are required when students' IEPs or 504 management plans specify that the student needs to have test items or directions interpreted by signing or transliteration in order to participate.

Proctors

Proctors should receive the same training as Examiners and must also sign the *Examiner's/Proctor's Test Security Agreement* as noted in Section 4.3. The use of non-school personnel as Proctors should be approached with caution.

Test administrations, which include the interpretation (e.g., signing, transliteration) of test items, must be proctored.

Proctors also may transcribe or verify the transcription of student responses to the regular answer document after testing. Other adults in the school can also transcribe responses or verify responses without formal training as a Proctor. Transcriptions must be verified by a second adult.

Audiotaping

Some accommodations require that the test administration be audiotaped. These accommodations include:

- read-aloud administration
- Examiner/Proctor records students' answers for students who must dictate answers because they are unable to mark the regular answer document.
- Scribe writes student's response to prompt for student with accommodations of dictation to a scribe.

If you have students with such accommodations specified in their IEPs, 504 management plans, or *LEP SOL Participation Plans*, arrange for the test administration to be audiotaped.

4.7 Understand Your Division's Procedure for Completing the Student Identification Information on the Answer Documents

Information about each student must be recorded on the demographic pages of her or his answer document by hand. It is vital that demographic information be gridded correctly to avoid delays in scoring and score reports. **Student demographic information is gridded on the front and back covers of the answer document.**

Your STC should advise you well in advance of testing who is to complete each section of the demographic pages, and when sections are to be completed. Some sections, such as the student name

grid, may be completed by students or adults before testing begins. Other sections, such as testing status, are to be completed only by you or another adult and only after testing is completed.

Your STC will also tell you whether or not you should grid special codes such as disability status, limited English proficient status, free or reduced-price lunch information, or career and technical education information.

Samples of the new demographic pages may be found in Appendix D. Refer to the sample pages applicable to your test administration. Sections 5.1 and 6.2 contain detailed information about completing the pages.

If it is not clear how to fill out the demographic pages of the answer document, be sure to ask your STC for information well in advance of the test administration dates.

4.7.1 Completing the Race/Ethnicity grid (Section E)

Use these guidelines if students have questions regarding the appropriate circle to fill in for Race/Ethnicity. Students with origins in the Pacific Islands may choose to code Pacific Islander or Native Hawaiian. Please be sure students code only one grid. If students have a multi-ethnic background, they may fill in the “unspecified” circle. The grid may be left blank if students object to completing Section E.

Table 1. Race/Ethnicity Guidelines

RACE/ETHNICITY	GUIDELINE
American Indian or Alaskan Native	A person having origins in any of the original peoples of North America who maintains cultural identification through tribal affiliation or community recognition.
Asian or Pacific Islander	A person having origins in any of the original peoples of the Far East, Southeast Asia, the Pacific islands, or the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, the Philippines, and Samoa.
Black (not of Hispanic origin)	A person having origins in any of the black racial groups of Africa.
Hispanic	A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.
White (not of Hispanic origin)	A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
Native Hawaiian	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific island.
Unspecified	A person having a multi-ethnic background who does not identify with one of the other groups listed above.

4.8 Assemble the Materials Needed for Testing

The following materials are required for each student:

Multiple-Choice Writing Component only. A supply of sharpened soft-lead (No. 2) pencils is to be

available. Mechanical pencils may be used as long as they contain No. 2 lead. No student may use a dictionary, electronic spelling checker, or scratch paper unless specified in an IEP or 504 management plan.

Direct Writing Component only. Dictionaries, scratch paper, and a supply of sharpened soft-lead (No. 2) pencils are to be available for students to use during testing. Mechanical pencils may be used as long as they contain No. 2 lead. Scratch paper is to be used only for planning and organizing and must be collected by the Examiner at the end of a testing session and forwarded to the STC, who will destroy it. A thesaurus cannot be used for either the direct writing or multiple-choice writing component of the test. Check the dictionaries that students will use to ensure they do not have a thesaurus section. Electronic spelling checkers may be used for the direct writing component **only** by a student whose IEP or 504 management plan specifies this accommodation.

4.8.1 Arrange for additional materials required for testing accommodations

Some accommodations require additional materials and supplies for test administration. It is important to review students' IEPs, 504 management plans, or *LEP SOL Participation Plans* to identify necessary materials or devices in advance of the test dates. For example, if you have students who will be using audiotapes that accompany the Braille, large-print, or regular-print versions of a test, you will need tape recorders, preferably one for each student. Other students may require magnification aids or a Braillewriter, depending on what their IEPs, 504 management plans, or *LEP SOL Participation Plans* specify.

If you have students who require Braille or large-print answer documents, these **are not** included with testing materials that are shipped from Harcourt Assessment, Inc. **Your school division must supply Braille or large-print answer documents if they are required by students.** Note: Large-print answer documents are simply enlarged photocopies of regular answer documents.

4.9 Plan for an Alternate Test Site

IMPORTANT: SOL assessments are untimed. Students who do not finish by the end of the allotted test administration time should be given as much time as they need to complete the test. Students are **not** allowed, however, to complete the test after leaving, voluntarily or not, for any activity such as lunch or other breaks that would allow interaction with other students or access to educational materials. Students **must** complete each component of the test in one school day.

Before the first day of testing, determine whether the testing site will be used for non-testing activities at the end of the allocated time. If so, be prepared to move students who have not completed the test to an alternate testing area. Should this become necessary, be sure to maintain the security of the test booklets and answer documents for those students yet to complete the test. Students should not be allowed to discuss the test in any way during this move.

5. SPECIFIC DUTIES OF EXAMINERS: DURING TESTING

The two-part writing assessment consists of a multiple-choice component and a direct writing component (a response by students to a writing prompt). Two separate testing sessions are required. The multiple-choice component is to be administered on July 19 **or** 20 (**main form**), and the direct writing component (**main prompt**) is to be administered on July 21.

Additionally, provisions have been made for qualified students to have two opportunities to take the SOL *English: Writing* test during the summer 2004 administration. Eligible students for the second opportunity are those students who are scheduled to graduate by August 31, 2004 and who need the SOL *English: Writing* verified credit. The multiple-choice component for the second opportunity is to be administered on July 19 **or** 20 (using the **alternate form**), and the direct writing component (using the **alternate prompt**) is to be administered on July 22.

Each student will use one document to record answers for both components of the test. All testing materials must be returned to your School Test Coordinator (STC) for secure storage at the conclusion of the multiple-choice component and again at the conclusion of the direct writing component.

This section includes directions for having students complete the student information grids on the covers of the answer documents, information that will help you prepare for each testing session, and specific directions for administering the multiple-choice and direct writing components.

- Directions for completing the student identification information grids are in Section 5.1.
- Directions for administering the multiple-choice component are in Section 5.3.
- Directions for administering the direct writing component are in Section 5.4.

Some of these sections include instructions that are to be read verbatim to students. These instructions are preceded by the word "SAY" and are in **bold type**. These directions must be read to the students slowly, clearly, and **exactly as written**. It is essential that you become familiar with these instructions before test administration and that you follow them exactly as they appear.

5.1 Student Completion of Required Demographic Information

The following directions will guide students in completing demographic information on their answer documents.

Be sure that all desks or tables are cleared of books and other materials not needed for the test. See that each student has two sharpened soft-lead (No. 2) pencils with erasers. It may be helpful to display samples of identification information on the chalkboard.

Although some of the information written in the top section of the demographic page is also gridded in other sections, it is important that students complete the top section. This will allow the scoring center staff to correct gridding errors or omissions. For example, if a student fails to complete the Date of Birth grid in Section C but **does** enter her/his date of birth in the top section, the scoring center staff will be able to complete the gridded information.

If a student's name has a suffix such as "Jr." or "III," it may be gridded if space permits. A space must be left between the last name and the suffix. It is not necessary to fill in the circles for boxes that are left empty.

Before distributing the answer documents,

SAY **I will give each of you an answer document. When you get it, leave it on your desk. Do not write anything on it until I tell you what to do.**

Distribute the answer documents with the demographic page facing up.

SAY **We will fill out some of the information on this page. In Section A, find the line labeled**

“Student Name.” Carefully print your last name, then your first name, and then your middle initial.

Give help as needed.

SAY **Now, on the other lines, fill in the rest of the information asked for: teacher, school, school division, gender, grade, your date of birth, and test date. For test date, write the month and year. Does anyone have a question?**

NOTE: You may expand on this instruction to clarify the information students should fill in on the lines of the answer document.

Answer students’ questions. Refer them to the chalkboard if you have written identification information there. While students are filling in the information, walk around the room to see that they are following instructions. Give help as needed. When all students have finished,

SAY **Do not mark any boxes except the ones I tell you to mark. Some of the boxes may be left blank. In Section B, find the box which contains areas labeled “Last Name,” “First Name,” and “MI.” In the area labeled “Last Name,” print your last name in the boxes at the top of each column. Begin in the left-hand column, and write only one letter in each box.**

Give help as needed. When all students have finished,

SAY **Now, in the area labeled “First Name,” print your first name in the boxes at the top of each column. Begin in the left-hand column, and write only one letter in each box.**

Give help as needed. When all students have finished,

SAY **In the column labeled “MI,” print your middle initial in the box at the top of the column. Does anyone have a question?**

Give help as needed. After students have finished,

SAY **Now, fill in the matching circle beneath each letter in your name. Be sure you fill in only one circle for each letter. Does anyone have a question?**

Give help as needed. After students have finished,

SAY **Now find Section C, which is labeled “Date of Birth.” In the area labeled “Month,” find the circle for the month of your birthday and fill it in.**

After students have finished,

SAY **The next area is labeled “Day.” In the boxes, write the date on which you were born, putting one number in each box. For example, if your birthday is between the 1st and the 9th of the month, you would write “zero” in the first box and the correct number in the second box. Does anyone have a question?**

Answer all questions. When everyone has finished,

SAY **Now beneath each box, fill in the circle that has the same number as you wrote in the box.**

After students have finished,

SAY **The next area is labeled “Year.” Under the shaded box, fill in the circle next to “19.” In the white boxes, write the last two digits of the year in which you were born. Then fill in the circles for these two digits.**

Give help as needed.

SAY Now find Section D, which is labeled “Gender.” Fill in the circle next to “Female” if you are a female or the circle next to “Male” if you are a male.

When students have finished,

SAY Now find Section E, which is labeled “Race/Ethnicity.” Fill in the circle next to the best description of your race or ethnic background. Raise your hand if you have a question. Fill in only one circle.

Answer students' questions. If students have a multi-ethnic background, they may fill in the “unspecified” circle, or if they object to completing this grid, do not insist that they complete it. The grid may be left blank. If a student has a question about which circle to fill in, refer to Table 1.

SAY Now find Section F, “Grade.” Fill in the circle with the number of your grade.

Give help as needed.

If the “Title I/TAS,” “Local Use #1,” “Local Use #2,” or “Student Number” sections are being used, modify the following instructions accordingly; otherwise,

SAY At this time, do not mark in any of the sections that are labeled with the letters G through AA. Do you have any questions?

Answer students' questions.

Preadministration gridding of the demographic page is now complete.

Section J, MC Form, will be completed during the actual testing session. Other sections such as Testing Status will be completed after administration. To administer the multiple-choice component of the *English: Writing* test, see Section 5.3.

5.2 General Instructions for Administering the SOL End-of-Course *English: Writing* Test

5.2.1 Preparation for administering the test to students who require special accommodations

NOTE

You may skip this section if you are not testing students who require special accommodations.

5.2.1.1 Accommodations involving assistance with directions and interpreting directions

You may make accommodations as needed to the specific directions for administering a test to ensure that students taking the read-aloud, Braille, large-print, and/or accompanying audiotape editions of the test understand the testing procedures. For example, you should tell students they do not need to read or pay attention to the copyright notice that appears in the Braille edition and also is read at the beginning of audiotapes.

Assistance with directions may be provided as an accommodation if specified in the student's IEP, 504 management plan, or *LEP SOL Participation Plan*. Assistance with directions may include

reading directions to students, simplifying directions, clarifying directions, or writing directions. You may simplify directions by restating the directions using more familiar or clearly understood terminology. You also may clarify directions by answering questions from the students about the test directions. An accommodation may require that the Examiner provide a copy of the directions for student reference during the test. Directions may be copied from either the student's test booklet or this manual. The directions may be written on the chalkboard, displayed on an overhead projector, or copied onto individual sheets of paper. Again, special care must be taken when assisting with directions so as not to lead the students to correct responses.

Assistance with directions may include interpreting the test directions through signing or transliteration. Hearing-impaired students who normally communicate in an alternative or manual method may be provided an educational interpreter to interpret test directions or to answer questions concerning test instructions or procedures. As the Examiner, you must be present for the testing session and read aloud the test directions as presented in this manual so that they can be communicated in the alternative or manual method by the educational interpreter. The student must direct any questions to you, as the Examiner, and your response must be communicated by the educational interpreter. The interpreter should also communicate sample questions that are read aloud as part of the test directions.

5.2.1.2 Providing accommodations in test presentation

Read-aloud administration

Students with disabilities or limited English proficient students who have the accommodation of having the test read to them will use the same form as the other students in a classroom.

You must be very careful when reading the test aloud so that you do not lead the student to correct responses by intonation or by repeating any part of the test that is not specifically requested by the student. **Prior to reading aloud a test item, take the time to review the item so that the answer is not inadvertently given to the student. Depending on the content of the test item, you may need to read aloud, "Broad Rd." as "Broad R-d period." Similarly, you may need to read the number 3,254 as "three comma two five four."** Special attention must be given to the IEP, 504 documentation, or *LEP SOL Participation Plan* for specific accommodations regarding reading the test aloud. For example, if a student's accommodation requires the entire test to be read orally and may require having words, questions, or sentences re-read orally when requested by the student. In particular, care must be taken to describe graphics without leading the student to the correct response.

A large-print or Braille copy of the test should be used in conjunction with reading the test aloud in order to provide the student multi-sensory stimulation. Test items must be read in English. A read-aloud administration must be recorded. The taped record of the entire testing session shall be retained on file in the office of the Division Director of Testing until scores are received and verified.

Interpreting (e.g., signing, transliteration) test items

The interpreter must be very careful when interpreting the test items so as not to lead the student to a correct answer by facial expression or by repeating any part of the test which is not specifically requested by the student.

An interpreted (e.g., signing, transliteration) administration must be proctored by appropriate school personnel. You, as the Test Examiner, and the Proctor must verify in writing that the test administration was conducted according to the standardized procedures. This written verification shall be retained on file in the office of the Division Director of Testing until scores are received and verified.

Using audiotapes that accompany Braille, large-print, or regular-print editions

Before test administration, check tape recorders to be sure they will work correctly during test administration. Check the labels of the audiotapes you are given to see that the subject areas and test form numbers match the Braille, large-print, or regular-print test booklets. Contact your STC if you have not received audiotapes that are required for testing or if you have received audiotapes that do not correspond to test booklets.

In each set of specific directions for administering a subject area test, watch for a **NOTE** box that will advise exactly when to begin playing an audiotape. On the audiotape, the narrator reads the directions to the student and the sample but does not refer to the answer document or how to mark answers. You may modify your instructions to the student as necessary. **Students may pause or stop a tape as necessary during the test to follow its contents and keep up with the narration.** So that students may stop the tape as they need to, it is best to have an individual tape and tape recorder for each student using an audiotape version.

5.3 Directions for Administering the *English: Writing* Multiple-Choice Component (July 19 or 20, 2004)

The two-part *English: Writing* test consists of a multiple-choice component and a direct writing component. The *English: Writing* test is administered in two separate sittings, each on a different day. **Students will use the same answer documents in both sessions.** All testing materials must be returned to your STC for secure storage between testing sessions. Directions for administering the direct writing component begin in Section 5.4.

5.3.1 Preparation for administering the multiple-choice component

On the morning of testing, you will receive all materials needed to administer the multiple-choice component of the SOL *English: Writing* test in your classroom. Your STC will provide you with multiple-choice test booklets and answer documents.

Your STC will ask you to initial an *SOL Examiner's/Proctor's Test Booklet Transmittal Form/Affidavit* or an *SOL Special Test Forms Classroom Transmittal Document* verifying your receipt of the test materials. The purpose of these documents is to track the secure materials throughout the test administration period. Be sure to count the number of test booklets you receive from the STC before you initial the form.

Make sure you have all the materials needed to administer the multiple-choice component of the writing test, as detailed in the chart on the following page. Depending on the type of forms you are administering (Regular or Special Forms, or both) your STC will provide you with the appropriate testing materials.

Table 2. Testing Materials for *English: Writing* (Multiple-Choice)

MATERIALS YOU WILL NEED:	<ul style="list-style-type: none"> • a copy of this manual • a supply of test booklets • the students' answer documents • a supply of sharpened soft-lead (No. 2) pencils with erasers
MATERIALS REQUIRED FOR EACH STUDENT TESTING WITH REGULAR-PRINT FORMS:	<ul style="list-style-type: none"> • a test booklet • the student's answer document • two sharpened soft-lead (No. 2) pencils with erasers
MATERIALS REQUIRED FOR EACH STUDENT TESTING WITH SPECIAL FORMS:	<ul style="list-style-type: none"> • the student's answer document • two sharpened soft-lead (No. 2) pencils with erasers; and <p style="text-align: center;">BRAILLE</p> <ul style="list-style-type: none"> • Braille test booklets (and accompanying audiotapes as needed to provide specified accommodations). An Examiner's copy of the Braille test in regular print will be provided. If needed, transcriber's notes will accompany Braille booklets; or <p style="text-align: center;">LARGE-PRINT</p> <ul style="list-style-type: none"> • large-print test booklets (and accompanying audiotapes as needed to provide specified accommodations). An Examiner's copy of the large-print test will be provided; or <p style="text-align: center;">REGULAR AUDIO</p> <ul style="list-style-type: none"> • regular-print test booklet • accompanying audiotape

NOTE

The audiotapes that accompany the Braille and large-print tests are different from the regular-print edition of the test and its accompanying audiotape.

Just before you distribute test booklets to students for the **first** time, open each package and count the number of booklets in it. Each package cover sheet will show:

- a set or package number unique to the group of booklets contained in the specific package; and
- the form number of the test booklets contained in the package.

Indicate the number of booklets counted by checking off the applicable box on the package cover sheet. Then, sign and date the cover sheet. A sample of this cover sheet is in Appendix F.

To avoid interruptions during testing, make sure that all students have had an opportunity to visit the restroom and to get a drink of water before you begin the testing session. Students must not be denied the opportunity to visit the restroom during testing. However, such visits must be supervised and students provided no opportunity to interact with other students or access any educational materials.

Make sure that all desks are clear of books and other materials not needed for the test. See that each student has two sharpened soft-lead (No. 2) pencils with erasers.

Remember that the SOL tests are untimed and that students who have not finished by the end of the allotted time should be given as much time as they need to complete the test. Be prepared for the possibility of moving these students to an alternate testing site. Should this become necessary, be sure to maintain the security of the test booklets and answer documents for those students yet to complete the test. Students should not be allowed to discuss the test in any way during this move.

5.3.2 Specific directions for administering the End-of-Course *English: Writing* multiple-choice component

NOTE

Test booklet page numbers in this manual refer to Regular Forms only. If you are administering Special Test Forms tests, determine the correct test booklet page references before you begin each testing session. Also, the written directions for Special Test Forms may not make any references to marking answer documents. You may modify both of these instructions accordingly.

All directions that you are to read aloud to students are in **bold type** so that they stand out from the rest of the text. Read them **exactly as they are written**, using a natural tone and manner.

If you make a mistake in reading a direction, stop and say, "No, that was wrong. I must re-read it to you. Listen again." Then read the direction again.

Try to maintain a natural classroom atmosphere during the test administration. Encourage students to do their best. Check periodically to make sure that students are recording their answers correctly in the answer document, following instructions, and working until the end of the test or as far as they can.

Remind students to handle all materials with care, record their answers with heavy, dark pencil marks, and avoid making extra marks. Also, answer documents should never be folded, clipped, stapled, or torn.

Help must not be given on specific items, and no clues should be given about the correctness of a student's answer to a particular item. Test questions may not be read to students, unless specified in their IEPs, 504 management plans, or *LEP SOL Participation Plans*. **If in doubt, it is better to say that you cannot respond to the student's question rather than risk violating standard procedures.**

In Section J–MC Form of the demographic page, have students print and grid in the form number of their test booklets. The form number is located on the top front cover of the *English: Writing* test booklet. The first number of the form number is already filled in on the answer document.

If students have **just completed** Sections A–F of their demographic pages and still have answer documents in their possession, proceed to the instructions following the row of asterisks below.

OR

If students completed Sections A–F of their demographic pages on a previous day or in an earlier sitting on this day,

SAY I am going to give your answer document to you. Make sure that your name is on the front of it. (Demonstrate.) Keep your answer document turned over so that the page we have already completed is facing up. (Demonstrate.) Be very careful with your answer document. Do not fold or bend it.

Distribute answer documents. Make sure each student gets the correct one. Then proceed to the instructions following the row of asterisks.

* * * * *

Administration of the test may now begin.

SAY Today you will be taking the first part of the SOL *Writing* test. This test will provide information about how well you write. It is important that you do your best on this test. Now I am going to give each of you a test booklet. Do not open your test booklet until I tell you to do so.

Distribute the test booklets.

SAY Look at the front cover of your test booklet for the form number of the test you are taking. Now look at the front page of your answer booklet. Find Section J, labeled “MC Form”. The first number, “1,” is already filled in. In the empty boxes, write the other letters and numbers that appear on the front of your test booklet. Beneath each box in which you wrote a letter or number, fill in the circle that has the same letter or number. When you are finished, recheck the form number and the circles you filled in.

As the Examiner, you may need to complete this section for students with disabilities. On a large-print test booklet, the form number is in the top right corner of the test booklet's front cover. The form number for a Braille test booklet is also on its front cover at the bottom center. Answer any questions the students may have. Correct completion of the form number grid is essential for accurate scoring.

SAY On the front cover of your test booklet, find the box labeled “Student Name.” (Point.) Print your first and last name in the box. Then turn your test booklet over. Print your first and last name in the box.

SAY On the back cover of your answer booklet, find the top two boxes labeled “Student Last Name” and “Student First Initial”. (Point.) Print your last name in the first box. Print your first initial in the second box.

Ensure that all students have printed their names clearly in the boxes.

SAY Open your test booklet to page 3.

Demonstrate. Make sure all students have the correct page showing.

SAY Look at the directions at the top of the page. Read them to yourself as I read them aloud. ***“Directions: Read the passage in each box. Read each question after the passage. Choose the best answer. Then mark the space in the answer booklet for the answer you have chosen.”*** Now find Sample A in the shaded box beneath the directions. Read the passage to yourself.

Pause while students read the first sample passage.

SAY Now read the question and each answer choice to yourself while I read aloud. ***“Which of these would best help Sarah write her description of her older brother? Is it: (A) Calling his friends and telling them about him . . . (B) Thinking about all the things she likes about him . . . (C) Making a list of things she wants him to do for her . . . (D) Asking him to take her to the library?”*** Which is the best answer?

Pause for replies.

SAY Yes, the best answer is “B” because thinking about all the things she likes about him helps Sarah to focus on the topic. Are there any questions about how to mark this answer on your answer booklet?

Answer all questions related to completing the answer booklet.

SAY Now look at the back cover of your answer booklet. Find the area for marking your answers. In the shaded box labeled “Samples,” mark the space for the letter “B” for Sample A, because “B” is the letter for the best answer. Are there any questions?

Pause.

SAY Now find Sample B in your test booklet. Read the passage and then answer the question. Notice that each sentence has a number. Sometimes the questions will mention the numbers. (Pause.) Which answer did you choose?

Pause for replies.

SAY That’s right. Answer “F” is the best answer. Fill in the circle for the letter “F” for Sample B in the answer booklet. (Demonstrate.) Does everyone understand what to do?

Answer all questions.

SAY Now look at Sample C. Read the passage and the question. Mark your answer in your answer booklet.

When students have finished,

SAY Which answer did you choose? (Pause for replies.) That’s right. Answer “C” is the best answer. Fill in the circle for the letter “C” for Sample C in the answer booklet. (Demonstrate.) Does everyone understand what to do?

Answer any questions.

SAY **Now look at Sample D. Read the passage and the question. Mark your answer in your answer booklet.**

When students have finished,

SAY **Which answer did you choose?** (Pause for replies.) **That's right. Answer "J" is the best answer. Fill in the circle for the letter "J" for Sample D in the answer booklet.** (Demonstrate.) **Does everyone understand what to do?**

Answer any questions.

Make sure students understand the "as it is" option and that everyone understands what to do.

Before actual testing starts, make sure the test procedures are very clear to the students.

Questions should be encouraged so that every student understands the mechanics of the test.

When responding to questions about test procedures or sample items, you may find it necessary to go beyond simply repeating an instruction.

SAY **You should answer all of the questions in this booklet. You may have as much time as you need to complete this test. Work until you come to the stop sign. When you finish, you may check your work on the test.**

Remember, read each passage; then answer the questions about the passage. Choose the best answer for each question. You may write in your test booklets, but make sure to mark your answers on your answer booklet. Notice that odd-numbered questions have answer choices labeled "A," "B," "C," and "D." The answer choices for even-numbered questions are labeled "F," "G," "H," and "J." If you decide to change your answer to a question, make sure you completely erase the first mark you made. Does everyone understand what to do?

After all questions have been answered,

SAY **You may start working now.**

NOTE

If you are administering an accompanying audiotape to a Braille, large-print, or regular-print test, you or the students may now begin playing the tape. Note that the narrator will read the directions and the sample. If you have already covered that information, you may choose to advance the tape to the narration of the first test item. **You or the students may pause or stop a tape as necessary during the test to better follow its contents.**

If a student asks a question during the test, be very careful when answering. If the student's question refers to the mechanics of testing, such as how to fill in a circle, it can be answered. If the question refers to a particular item, the student should be told, "Read it carefully and do just what it says." Help must not be given on specific items and no cues should be given about the correctness of a student's answer to a particular item.

Test questions may **not** be read to students unless specified in their IEPs, 504 management plans, or *LEP SOL Participation Plans*. **If in doubt, it is better to say that you cannot respond to the student's question rather than risk violating standard procedures.**

During test administration, monitor the testing process by moving as unobtrusively as possible about the room. While you are moving about the room, check that students are working on the multiple-choice component of the test and not writing in the answer document pages reserved for the direct writing component. Make sure that students are turning pages when necessary and marking their answers properly. If gridding errors are observed, the class should be told, "Please take a moment to check your work. The test question in your test booklet should match the bubble number on your answer document."

Have extra pencils and erasers available in an accessible place. Students are **not to have access to dictionaries, electronic spelling checkers, or scratch paper** during administration of the multiple-choice component unless specified in an IEP, 504 management plan or *LEP SOL Participation Plan*. (Electronic spelling checkers are not an accommodation for LEP students.)

Examiners should focus their attention on monitoring the testing process during test administration and should not spend time reviewing test items.

After about 50 minutes, or when most students have finished,

SAY If you have finished, raise your hand. I will collect your materials. If you have not finished, continue working and take as much time as you need. When you do finish, raise your hand. After I have collected your materials, you may sit quietly or read if you wish.

Collect the answer documents of those students who have completed the test; then collect their test booklets. These items should be collected from each individual student, not passed up or down the rows of desks or seats.

Remember that the SOL tests are untimed. Allow those students who have not finished to continue working. If necessary, you may move the students to an alternate test area. Should this become necessary, be sure to maintain the security of the test booklets and answer documents for those students yet to complete the test. Students should not be allowed to discuss the test in any way during this move.

Examiners must collect all materials used in testing. Be sure to account for all test materials, including test booklets and answer documents, **before** students are dismissed from the test session. Test materials must be kept in a secure location.

After all students have completed the test, announce to them that they should not discuss the test because other students may still need to complete it. Teachers may not discuss any of the test questions with anyone.

5.3.3 Handling testing irregularities

Be aware of any situation in which a testing irregularity could occur, which includes but is not limited to the following:

- a student becomes ill during testing
- a student is observed cheating during the testing session
- a teacher or another adult provides improper assistance to a student
- testing accommodations specified in a student's IEP, 504 management plan, or *LEP SOL Participation Plan* are not provided
- the student is provided an accommodation that is not specified in the student's IEP, 504 management plan, or *LEP SOL Participation Plan*
- an excessive disturbance or disruption occurs during the testing session
- a student's test booklet, writing prompt, or used answer document is missing
- any unused/unassigned test booklet or writing prompt is missing

A testing irregularity is any occurrence that may inappropriately influence a student's performance. Any testing irregularity that is observed must be reported **immediately** to your STC. Your STC will discuss with you procedures for handling testing irregularities. All testing irregularities must be recorded on the *SOL English: Writing Test Irregularity Form* in Appendix G of this manual.

Ensure that the form is accurately completed to include division and school code, that the correct grade is circled, and that the test form or prompt number is entered. Under "Description of Irregularity," include the name of each student involved in an irregularity that may require students to be retested with an alternate form.

IMPORTANT: If the irregularity involves lost test materials, attach to the *SOL Writing Test Irregularity Form*:

1. a copy of the *Examiner's/Proctor's Test Booklet or Writing Prompt Transmittal Form/Affidavit* tracking the materials;
2. a description of the circumstances surrounding the loss of the materials;
3. an explanation of the steps taken to locate the materials; and
4. a copy of the test booklet or writing prompt package cover sheet.

If you question whether an incident in your classroom is a testing irregularity, discuss it with your STC.

5.3.4 Assembling and returning test booklets and answer documents to the STC

Test booklets and answer documents must be returned to the STC as soon as possible after the end of the testing session, **but no later than the end of the same school day on which the test was administered**. Ensure that the number of booklets matches the number you recorded on the cover sheet and on the *SOL Examiner's Test Booklet Transmittal Form/Affidavit*. If it is impossible for you to return test materials immediately at the end of the testing session, secure them in a location that is inaccessible to students and advise your STC of the situation.

Remember that arrangements must be made to return test materials to the STC before the end of the day so that they can be counted and locked in a secure location overnight. When you return the materials to your STC, have her/him initial the *SOL Examiner's Test Booklet Transmittal Form/Affidavit* verifying that you have returned all materials.

Retain this manual for use in administration of the direct writing component on July 21, 2004.

5.4 Directions for Administering the *English: Writing* Direct Writing Component (July 21, 2004 – main prompt only or July 22, 2004 – alternate prompt only)

5.4.1 Preparation for administering the direct writing component

On the morning of testing, you will receive all materials needed to administer the direct writing component of the *SOL English: Writing* test in your classroom. Your STC will provide you with the following materials:

- the answer documents that the students used for the multiple-choice component of the *English: Writing* test
- sealed package(s) of writing prompts

Your STC will ask you to initial an *SOL Examiner's Writing Prompt Transmittal Form/Affidavit* verifying your receipt of the writing prompts. The purpose of this form is to track these secure materials throughout the test administration period.

Sealed packages of writing prompts must not be opened more than 30 minutes before the test session for the direct writing component. Just before you distribute the prompts to students, open each package and count the number of prompts in it. You should have the same number of prompts as printed on the package cover sheet. Complete the cover sheet for each package of prompts. Check the applicable box and sign and date each cover sheet. Immediately after the testing session has concluded, return all cover sheets and all prompts to the STC. A sample of a writing prompt cover sheet is in Appendix F.

Make sure you have all the materials needed to administer the direct writing component of the *English: Writing* test, as detailed in the chart on the following page. Depending on the type of forms you are administering (Regular or Special Forms, or both) your STC will provide you with the appropriate testing materials.

Table 3. Testing Materials for Direct Writing

TESTING MATERIALS YOU WILL REQUIRE:	<ul style="list-style-type: none"> • a copy of this manual • a supply of writing prompts • the students' answer documents • a supply of sharpened soft-lead (No. 2) pencils with erasers • scratch paper
MATERIALS REQUIRED FOR EACH STUDENT TESTING WITH REGULAR-PRINT FORMS:	<ul style="list-style-type: none"> • a writing prompt • the student's answer document • two sharpened soft-lead (No. 2) pencils with erasers • an easily accessible dictionary • scratch paper
MATERIALS REQUIRED FOR EACH STUDENT TESTING WITH SPECIAL FORMS:	<ul style="list-style-type: none"> • the student's answer document • two sharpened soft-lead (No. 2) pencils with erasers • an easily accessible dictionary • scratch paper, and <p style="text-align: center;">BRAILLE</p> <ul style="list-style-type: none"> • Braille writing prompts (and accompanying audiotapes as needed to provide specified accommodations). An Examiner's copy of the Braille writing prompt in regular print will be provided to you in order to work with Braille readers. If needed, transcriber's notes will accompany Braille prompts; or <p style="text-align: center;">LARGE-PRINT</p> <ul style="list-style-type: none"> • large-print writing prompts (and accompanying audiotapes as needed to provide specified accommodations). An Examiner's copy of the large-print writing prompt in regular print will be provided; <p style="text-align: center;">REGULAR AUDIO</p> <ul style="list-style-type: none"> • regular-print writing prompt • accompanying audiotape

NOTE

It is important to note that the audiotapes that accompany the Braille and large-print writing prompts are different from the regular-print edition of the writing prompt and its accompanying audiotape, if ordered.

To avoid interruptions during testing, make sure that all students have had an opportunity to visit the restroom and to get a drink of water before you begin the testing session. Students must not be denied the opportunity to visit the restroom during testing. However, such visits must be supervised and students provided no opportunity to interact with other students or access any educational materials.

Make sure that all desks are clear of books and other materials not needed for the test. See that each student has two sharpened soft-lead (No. 2) pencils with erasers.

All directions that you are to read aloud to students are in **bold type** so that they stand out from the rest of the text. Read them **exactly as they are written**, using a natural tone and manner.

If you make a mistake in reading a direction, stop and say, "No, that was wrong. I must re-read it to you. Listen again." Then read the direction again. Try to maintain a natural classroom atmosphere during the test administration. Encourage students to do their best. Check periodically to make sure that students are writing their papers in the correct section of the answer document and following instructions.

Remind students to handle all materials with care, to write their papers in pencil, and to avoid making extra marks. The answer documents should never be folded, clipped, stapled, or torn.

Electronic spelling checkers can be used **only** by students whose IEPs or 504 management plans specify these accommodations. **No** student is to use a thesaurus on the *English: Writing* test.

Remember that the SOL tests are untimed and that students who have not finished writing by the end of the allotted time should be given as much time as they need to complete the test.

Be prepared for the possibility of moving these students to an alternate testing site. Should this become necessary, be sure to maintain the security of the writing prompts and answer documents for those students yet to complete the test. Students should not be allowed to discuss the test in any way during this move.

5.4.2 Specific directions for administering the End-of-Course *English: Writing* direct writing component

Administration of the direct writing component may now begin.

Before distributing the answer documents,

SAY **Today you are going to take the second part of the SOL *English: Writing* test. For this part of the test you will write a short paper. You will write your paper in the same answer document that you used for the multiple-choice part of the test. I will now give you your answer document. Make sure that the answer document I have given you has your name on it. Raise your hand if it is not your answer document.**

Distribute answer documents. Resolve any problems before continuing. If you have not already opened the package(s) of prompts, do so now.

Immediately count and record the number of prompts on the cover sheet(s) that were enclosed in the package of prompts.

SAY **I will now give you your writing prompt. In the upper right-hand corner, you will find the words "Student Name." Write your first and last names immediately.**

Distribute the writing prompts.

SAY Be sure your name is on the prompt. Now look at the top of your writing prompt where it says “Prompt Number.” On the front of your answer document, find the area labeled “Section K, Prompt Number.” Write the prompt number in the empty boxes. Beneath each box in which you wrote a number, fill in the circle that has the same number. When you are finished, recheck the prompt number and the circles that you filled in.

Answer any questions the students may have. As the Examiner, you may need to complete this section for students with disabilities. Correct completion of this prompt number is essential for accurate scoring.

SAY Now look at page 3 of your answer document and find the boxes in the top right corner. (Point.) In the first box, write the first letter of your first name. In the second box, write your last name. Does everyone understand what to do?

Now look at the top of your writing prompt where it says “Prompt Number.” (Point.) On page 3 of your answer document, write the three-digit prompt number in the boxes in the top left corner. Write one digit in each box. Does everyone understand what to do?

Make sure students understand what to do.

When everyone has finished,

SAY Now read the writing prompt to yourself.

Pause while students read the writing prompt.

SAY Make sure you write about the topic given to you in the prompt. You may write about something that really happened or you may write a fictional paper. However, if you do not write about the topic given to you, your paper will not be scored. Are there any questions?

Answer any questions. Make sure that the students understand the topic of the writing prompt and know what to do. You may read the prompt to students if they have difficulty reading it.

SAY Now look at the “Checklist for Writers.” It lists points for you to keep in mind as you write. Read the checklist to yourself.

Pause while students read the checklist.

SAY Are there any questions?

Answer students’ questions.

SAY You may use a dictionary to check your spelling and scratch paper for any planning you need to do before you begin writing your paper. I will now give each of you a dictionary and some scratch paper.

Distribute dictionaries and scratch paper.

If you do not have enough dictionaries for each student to receive one, explain to students where the dictionaries are and the process they should follow if they need to use the dictionary. The procedure must ensure that students do not interact with each other while using the dictionary.

Before actual testing starts, make sure the test procedures are very clear to the students.

Questions should be encouraged so that every student understands the mechanics of the test. When responding to questions about test procedures, you may find it necessary to go beyond simply repeating an instruction. However, your comments must be confined to answering student questions about sample items or the mechanics of completing the answer document.

SAY You may take as much time as you need to complete this test. You may use some of this time to plan what you will write. Use the scratch paper I gave you for any planning you need to do. If you need more paper for planning, raise your hand and I will give you extra paper. After you have finished planning, write your paper on the pages with lines, beginning on page 3 where it says "Start Here." (Demonstrate.) Only the writing on the lined pages of the answer document will be scored so you must plan carefully in order to write everything you want to say in the answer document.

You do not have to fill all of the lined pages with writing. You should write as much as necessary to cover the writing topic well. You may print, or you may write in cursive. Are there any questions?

Answer any questions.

SAY You may begin now.

If a student asks a question during the test, be very careful when answering. You can answer the student's question if it refers to the mechanics of the test, such as where the response to the prompt should be written. But if the question refers to what the student should write about, say only, "Read the topic carefully and write a short paper about it." Help in how a paper should be written or on the mechanics of writing, such as how to spell a word, must not be given. **If in doubt, it is better to say that you cannot respond to the student's question rather than risk violating standard procedures.**

During test administration, monitor the testing process by moving as unobtrusively as possible about the room. While you are moving about the room, check that students are:

- working in the direct writing section of the answer document and not going back to the multiple-choice section
- writing their papers only on the lined pages of their answer documents. **Loose sheets of paper will not be scored.**

Have extra pencils, erasers, scratch paper, and dictionaries available in an accessible place.

Be aware of any situation in which a testing irregularity could occur. See Section 5.3.3 for examples of irregularities. A testing irregularity is any occurrence that may inappropriately influence a student's performance. Any testing irregularity that is observed must be reported **immediately** to your STC. Your STC will discuss with you procedures for handling testing irregularities. All testing irregularities must be recorded on the *SOL Writing Test Irregularity Form* found in Appendix G of this manual.

After about 50 minutes, or when most students have finished,

SAY If you have finished, raise your hand. I will collect your materials. If you have not finished, continue working and take as much time as you need. When you do finish, raise your hand. After I have collected your materials, you may sit quietly or read if you wish.

Collect the answer documents of those students who have completed the test; then collect their writing prompts and scratch paper. These items should be collected from each individual student, not passed up or down the rows of desks or seats.

Remember that the SOL tests are untimed. Allow those students who have not finished to continue working. If necessary, you may move the students to an alternate test area. Should this become necessary, be sure to maintain the security of the writing prompts and answer documents for those students yet to complete the test. Students should not be allowed to discuss the test in any way during this move.

Examiners must collect all materials used in testing. Be sure to account for all test materials, including writing prompts, answer documents, and scratch paper **before** students are dismissed from the test session.

5.4.3 Transcription of students' answers

A student's responses to the multiple-choice and direct writing tests must be transcribed to the regular answer document by a school official if the student's answers were:

- recorded on a Braille or on an enlarged copy of the answer document (not provided by Harcourt Assessment, Inc.);
- dictated to an Examiner/Teacher/Proctor and audiotaped; or
- marked in the test booklet itself.

The transcription must be verified by a second school official to ensure that no errors occurred. The Braille or enlarged copy of the answer document, audiotape of student responses, and/or the marked test booklet shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Note: Transcription of students' answers to the regular SOL answer documents must be completed **as soon as possible** after a writing test component has been administered. Remember that an answer document is considered to be secure once a student's answers have been recorded on it. Therefore, the answer document must be kept in locked storage when not in use during an actual testing session.

5.4.4 Assembling and returning materials to the STC

After the direct writing component session is over, prepare the answer documents for scoring as described in Sections 6.1–6.6.

Remember that the students' completed answer documents are secure test materials. They must be prepared for scoring in a location that is inaccessible to students and must be returned to your STC **no later than the end of the school day on which the test was administered**. Ensure that the number of documents matches the number you recorded on the cover sheet and on the *SOL Examiner's/Proctor's Writing Prompt Transmittal Form/Affidavit*. If the testing session was concluded relatively late in the school day and you do not have time to prepare the answer documents as described in Sections 6.1–6.6, return them to your STC at this time along with other test materials so that they can be counted and locked in a secure location overnight. Arrange with your STC to retrieve the answer documents on another school day so that you can inspect and prepare the answer documents for scoring.

When you return the materials to your STC, have her/him initial the *SOL Examiner's/Proctor's Writing Prompt Transmittal Form/Affidavit* verifying that you have returned all materials.

6. SPECIFIC DUTIES OF EXAMINERS: AFTER TESTING

6.1 Inspecting Answer Documents for Students Who Took the Test

At the end of the test session, you must make sure that the answer documents are undamaged and complete and that they contain all appropriate identification information. **Careful inspection of the students' answer documents will help prevent scoring delays.**

1. Inspect all answer documents for improper marks. All marks to be read by the scanners must be very dark. **Marks made with ballpoint pen, felt-tipped pen, or hard or colored pencils will not be scanned properly. Darken all light marks with a soft-lead (No. 2) pencil.**
2. Check the multiple-choice answer section. Stray marks must be completely erased. Scanning machines are extremely sensitive and can sometimes pick up stray marks and erasures as intended responses. When a student has made a change, make sure that the unwanted response is completely erased.
3. Remove any extraneous materials or loose sheets of paper from the section that contains the writing response, but **DO NOT ALTER THE STUDENT'S WRITTEN RESPONSE IN ANY WAY.** Only responses written in an answer document will be scored.
4. Check the demographic page:
 - a. Handwritten information in Section A (student's name, teacher, school, etc.) must be legibly entered in the spaces provided at the top of the page.
 - b. Machine-scannable information (student's name, date of birth, gender, etc.) must be completely and accurately filled in with dark No. 2 pencil marks. Make sure all sections have been completed, especially sections you have completed yourself.
 - c. Check each student's answer document to ensure that the correct multiple-choice form number has been gridded in Section J, MC Form, and the correct prompt number has been gridded in Section K, Prompt Number. Failure to complete Sections J and K accurately will result in the incorrect key being used to score the test.
5. Inspect answer documents for damage: No tape, staples, coffee, paint, or other foreign objects or substances can be on the answer documents.
6. Answer documents which are not in good physical condition (bent corners, folds or wrinkles, clips, or staples) cannot be scanned by electronic machines. If such an answer document is found, transcribe the student's multiple-choice answers, direct writing response, and demographic page information to a blank document. If such transcriptions are made:
 - a. verify the accuracy of **all** transcriptions with another Examiner, teacher, or faculty member.
 - b. print the word "VOID" on the demographic page of the original answer document and give it to your STC to return.

6.2 Completion of Demographic Page Codes

You or another adult must complete Sections G, H, I, M, O, Q, R, S, T, U, V, W, Y, Z, and AA of the answer documents' demographic pages for all students for whom these special codes are applicable. **It may be best to wait until testing is finished to complete these sections.** The accuracy and completeness of these special codes is critical to timely processing of student answer documents.

6.2.1 Sections G, H, and I

These sections of the demographic page are reserved for local use. Your STC will provide you with any necessary instructions for completing Section G — Student Number; Section H — Local Use #1 and Section I — Local Use #2.

6.2.2 Section M – SUBSTITUTE TEST

Fill in this circle if a student is taking one of the following tests instead of the SOL *English: Writing* test for verified credit:

- AP English Language and Composition
- AP English Literature and Composition
- IB English (Higher Level)
- IB English (Standard Level)
- SAT II Writing
- Test of English as a Foreign Language (TOEFL)
- Advanced Placement International English Language (APIEL)
- Cambridge International Examinations: First Language English (IGCSE)
- Cambridge International Examinations: English Language (GCE-AS)
- Cambridge International Examinations: IGCSE English as a Second Language
- ACT WorkKeys: Writing

If Section M is gridded, there is nothing to be gridded in Section Z, Testing Status.

6.2.3 Section O – N-CODE

Your STC will provide you with any necessary instructions for completing this section to identify a student who receives free or reduced-price lunches.

6.2.4 Section Q – TITLE I/TAS

Students attending schools with schoolwide Title I programs should not complete Section Q. Complete this grid if the student is receiving Targeted Assistance Services under Title I. Mark the subject area in which the student is receiving assistance:

- | | |
|---------------------------|-----------|
| • Reading and Mathematics | • Science |
| • Reading | • History |
| • Mathematics | |

Contact the school's Title I Coordinator for more information if needed. If you have additional questions, please call Brenda Spencer, Title I Coordinator, Virginia Department of Education at 804-371-6201 or email: bspencer@mail.vak12ed.edu.

6.2.5 Section R – STUDENT CATEGORY

Fill in the appropriate bubble for any student meeting the following criteria:

1. **Migrant:** A child who is, or whose parent or spouse is, a migratory agricultural worker including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent or spouse, in order to obtain temporary or seasonal employment in agricultural or fishing work –
 - A) has moved from one school district to another;
 - B) in a State that is comprised of a single school district, has moved from one administrative area to another within such district; or
 - C) resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity.

2. **Homeless:** A child who is homeless and attending any school served by the local educational agency.
3. **Neglected or Delinquent:** A child in a local institution for neglected or delinquent children and youth, or attending a community day program for such children.

6.2.6 Section S — LIMITED ENGLISH PROFICIENT

Fill in the circle **only if the student is classified as limited English proficient (LEP)**. Otherwise, leave the circle blank. The criteria for LEP is listed below:

Limited English Proficient (LEP) Students:

An LEP student in the Commonwealth of Virginia is classified according to the federal government definition as described in Public Law 107-110, the *No Child Left Behind Act* of 2001. The law states:

An LEP student is classified as one:		
(A.)		who is aged 3 through 21;
(B.)		who is enrolled or preparing to enroll in an elementary school or secondary school;
(C.)	(i.)	who was not born in the United States or whose native language is a language other than English; and who comes from an environment where a language other than English is dominant
OR		
	(ii.)	(I.) who is a Native American or Alaska Native, or a native resident of outlying areas; and
		(II.) who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency;
OR		
	(iii.)	who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant;
AND		
(D.)		whose difficulties speaking, reading, writing, or understanding the English language may be sufficient to deny the individual —
	(i.)	the ability to meet the State's proficient level of achievement on State assessments described in section 1111(b)(3);
	(ii.)	the ability to achieve successfully in classrooms where the language of instruction is English; or
	(iii.)	the opportunity to participate fully in society.
[P.L. 107-100, Title IX, Part A, Sec. 9101, (25)]		

NOTE

In its Consolidated State Application, submitted to USED on September 1, 2003, Virginia has further defined limited English proficient (LEP) students as those who are identified as level 1, level 2, level 3, level 4, monitor year 1, or monitor year 2 according to the English Language Proficiency Standards of Learning. At the end of the second year of monitor status, LEP students are classified as non-LEP (formerly LEP). In addition to these students, please **grid Section S** for those students who have exited LEP monitor status within the last two years. Recent guidance from USED allows Virginia to consider such students as LEP for the purposes of calculating Adequate Yearly Progress (AYP).

6.2.7 Section T — SOA ADJUSTMENT

Fill in this circle for limited English proficient students and transfer students who meet the criteria listed below.

Limited English Proficient (LEP) Students:

Mark an LEP student in the “SOA Adjustment” section **ONLY** if she/he meets the criteria in Section S (LEP) above AND has been enrolled in a Virginia public school for less than 11 semesters. Students who are in membership for the majority of days in a semester are considered to have been enrolled for that semester.

Transfer Students:

Complete the “Transfer” circle in Section T, SOA Adjustment, if the student meets criteria below A or B below.

A. Student enrolled from another state, private school, or home instruction AFTER 20 instructional hours have elapsed since the beginning of the school year (or semester, if on block schedule) following the opening of school.

OR

B. Student has transferred out of and back into the division during the school year and has been carried in your division’s membership for 50% or less of the school year (or 50% of the semester for those on block schedules).

Please consult with your STC if you have questions about whether this grid should be completed for a student.

6.2.8 Section U — S-CODE

Mark this section for students not currently enrolled, but who had sufficient standard credits in 2003 or 2004 to graduate and who are returning to retake the SOL *English: Writing* test for verified credit and/or to upgrade a diploma.

6.2.9 Section V — DISABILITY STATUS

Use the following Disability Status Codes to complete Section V for any student who is identified as having a disability. Use categories 1–14 and category 16 for students who are eligible for services under the *Individuals with Disabilities Education Act (IDEA)* and who have Individualized Education Programs (IEPs). Use category 15 for “otherwise qualified handicapped” students who are eligible for services under Section 504 of the *Rehabilitation Act of 1973*.

Table 4. Disability Status Codes

CODE	DISABILITY STATUS		CODE	DISABILITY STATUS
1	Mental Retardation		9	Speech/Language Impairment
2	Severe Disabilities		10	Other Health Impairment
3	Multiple Disabilities		11	Blank
4	Orthopedic Impairment		12	Deaf-Blind
5	Visual Impairment (including blindness)		13	Autism
6	Hearing Impairment/Deaf		14	Traumatic Brain Injury
7	Learning Disability		15	Otherwise Qualified Handicapped under Section 504
8	Emotional Disturbance		16	Developmental Delay (through age 8)
17–20	These circles should be left blank (positions not used).			

Fill in only one circle. If more than one disability exists, grid the **primary** disability.

Verify with your STC the proper procedure for coding. If these codes are not entered properly, a delay in scoring may occur.

6.2.10 Section W — CAREER AND TECHNICAL EDUCATION

Your STC will provide you with instructions for completing this section.

6.2.11 Section X — SPECIAL CODE

Do not complete this section.

6.2.12 Section Y — ADDITIONAL TEST CODES

Grid Section Y for any student who has already received the required standard credit in English (i.e., has passed the class) and is retaking the EOC SOL *English: Writing* test for verified credit.

6.2.13 Section Z — TESTING STATUS

All students in high school English courses that have covered the grades 9, 10, and 11 English SOL should take the SOL *English: Writing* test. However, there may be students in your class who, for a variety of reasons, either:

- **completed only one** component of the SOL *English: Writing* test (either the multiple-choice component or the direct writing component), or
- **completed neither component.**

This includes students who were not tested because they were absent, refused to take the test or were disruptive, or were involved in a medical emergency.

You or another adult will need to complete Section Z, Testing Status, on the answer document to explain why the student did not take the specific component(s). **This must be completed only after all make-up testing is completed.** An answer document must be completed and returned for students who were enrolled at the time of testing but did not take either component of the *English: Writing* test.

In Section Z, fill in the numbered circle that explains why the student did not take a component. A row of circles is available for each component. For students who attempted neither component, fill in the appropriate circle in each row and complete all sections of the demographic page on an answer document except Section J, MC Form, and Section K, Prompt Number.

Table 5. Coding “Testing Status”

FILL IN CIRCLE NUMBER:	IF THE STUDENT WAS:
1 = Absent	Absent.
4 = Medical Emergency	Unable to take the test due to a medical emergency.
5 = Refusal/Disruptive	Too disruptive or refused to take the test.
6 = Alternate Form Used	Fill in circle 6 only if instructed to do so by your STC.
7 = Student Cheated	Fill in circle 7 only at the direction of your STC if it is determined that a student cheated.
8 = Other	Fill in circle 8 only if instructed to do so by your STC.
9 = Student has already passed this test	Fill in circle 9 only if instructed to do so by your STC.
10 = Other	Fill in circle 10 only if instructed to do so by your STC.
11 = Other	Fill in circle 11 only if instructed to do so by your STC.
12 = Other	Fill in circle 12 only if instructed to do so by your STC.

**Completing the “Testing Status” Grid for Students
Who Took ONLY ONE Component of the *English: Writing* Test**

NOTE: Complete this section to explain why students did not take a particular component of the test. See Table 5 for the specific codes.

If the student missed **only** the **multiple-choice component**, fill in **only one** of the first three circles in the **top** row.

→

Z	TESTING STATUS											
①	④	⑤	⑥	⑦	⑧	⑨	⑩	⑪	⑫			
MARK ONLY ONE BUBBLE FOR EACH												
①	④	⑤	⑥	⑦	⑧	⑨	⑩	⑪	⑫			
COMPONENT NOT ADMINISTERED												

If the student missed **only** the **direct writing component**, fill in **only one** of the first three circles in the **bottom** row.

→

Z	TESTING STATUS											
①	④	⑤	⑥	⑦	⑧	⑨	⑩	⑪	⑫			
MARK ONLY ONE BUBBLE FOR EACH												
①	④	⑤	⑥	⑦	⑧	⑨	⑩	⑪	⑫			
COMPONENT NOT ADMINISTERED												

↑

Do not fill in circles 6 through 12 unless instructed to do so by your STC.

**Completing the "Testing Status" Grid for Students
Who Took NEITHER Component of the *English: Writing* Test**

If the student took **neither** the multiple-choice component **nor** the direct writing component, fill in **one** of the first three circles in **each** row.

Z TESTING STATUS											
1	4	5	6	7	8	9	10	11	12		
MARK ONLY ONE BUBBLE FOR EACH											
1	4	5	6	7	8	9	10	11	12		
COMPONENT NOT ADMINISTERED											

Do not fill in circles 6 through 12 unless instructed to do so by your STC.

6.2.14 Section AA – SPECIAL TEST ACCOMMODATIONS

Certain students with disabilities and students identified as limited English proficient (LEP) may receive testing accommodations. Only those testing accommodations that are specified in the IEP or 504 management plan for students with disabilities or on the *LEP SOL Participation Plan* may be used. Complete Section AA, Special Test Accommodations, if any testing accommodations are used. Grid **all** accommodations that apply. Accurate gridding of this section is critical. **If an accommodation is gridded, the student's primary disability and/or LEP status must also be gridded.**

Appendix E indicates the specific testing accommodations corresponding to the numbers shown in Section AA, Special Test Accommodations.

The following diagrams may also be helpful in completing the Special Test Accommodations grid.

AA	SPECIAL TEST ACCOMMODATIONS																							
Mult. Choice	1	2	3	4	5	6	7	8	9	10	11	12	13	17	18	20	21	22	23	27	A	B		
Direct Writing	1	2	3	4	5	6	7	8	9	10	11	12	13	17	18	20	21	22	23	24	25	27	A	B

Regarding Students with Disabilities:

17

The circle in the shaded box above is not applicable for a student with disabilities, unless the student is ALSO identified as LEP. If the student is identified as having a disability but not as LEP, DO NOT GRID.

Do not fill in circles A-B unless instructed to do so by your STC.

AA	SPECIAL TEST ACCOMMODATIONS																							
Mult. Choice	1	2	3	4	5	6	7	8	9	10	11	12	13	17	18	20	21	22	23	27	A	B		
Direct Writing	1	2	3	4	5	6	7	8	9	10	11	12	13	17	18	20	21	22	23	24	25	27	A	B

Regarding LEP Students:

5

Circles in the shaded boxes above are not applicable for an LEP student, unless the student is ALSO identified as having a disability. If the student is identified as LEP but does not have a disability, DO NOT GRID.

6.3 Completing the SSID Sheet

You will need a computer-generated, preprinted Scoring Service Identification Sheet (“SSID sheet” or, more commonly, “header sheet”) and a paper band to organize the answer documents. If you do not have one of each, check with your STC. The SSID will be used by the Scoring Center to identify the source and expected quantity of the used answer documents you return. It is important that all the necessary information is printed and/or gridded on this sheet. Samples can be found in Appendix H of this manual.

In some schools, Examiners may assemble answer documents with SSID sheets for special forms (Braille, large-print, and regular audio administrations). The SSID sheet for special forms is purple.

SSID sheets are scannable documents. **Photocopies are not acceptable for Scoring Center use.** If you do not have a scannable, preprinted SSID, obtain one from your STC.

Preprinted information on SIDE 1 includes the division name, city, state, school name, and grade in the top box of SIDE 1. Also on SIDE 1, circles are pre-gridded for grade, school name, and school code, which consists of the division code number and the building code number.

Verify and complete SIDE 1 of the SSID. The process involves verifying ALL pre-gridded data and entering other pertinent data into proper fields on the document. The instructions below must be followed carefully.

1. At the top of SIDE 1, verify the division name, the city and state, the school name, and the grade. For TEST ADMINISTRATION, enter the month and year. Enter your name next to TEACHER, COUNSELOR OR GROUP.
2. Under GRADE, the circle for 11 should be pre-gridded. Verify that this grade is gridded. If not, fill in the “11” circle.
3. In the SCHOOL NAME columns, verify that the correct school is pre-gridded. If not, check with your STC.
4. State-assigned code numbers for your division and your particular school should be preprinted under SCHOOL CODE. The three digits on the left are the division code, and the four digits on the right are your school code. **These codes are not to be altered.**
5. The NUMBER OF DOCUMENTS columns **must** match the number of answer documents submitted for scoring from your classroom. If an incorrect number is written or gridded in the “Number of Documents” box, score reporting will be delayed and schools may NOT receive score reports before the close of the school term. If you are uncertain about which answer documents to count, ask your STC. **Answer documents must be submitted for all students, both tested and not tested.** Since this total number will not be known until all necessary make-up sessions have been concluded, use the following instructions for completion of this grid.
 - a. At this point, **NO** make-up session(s) should be necessary for this classroom. After ensuring that is the case, enter the number of answer documents in your stack in the NUMBER OF DOCUMENTS box of the SSID. Enter the total, right-justified, in this box. Enter zeros to the left of the number to completely fill the four-digit field. For example, 32 documents would be printed and gridded as 0032.
 - b. If a make-up session(s) **WILL** be necessary for this classroom, leave these columns BLANK at this time. The STC will retain the SSID with the stack of answer documents in locked storage until after this classroom’s final (or only) make-up session. At that time, place the answer documents from the make-up session(s) in the same stack with those from the previous test sessions. Count them, and enter the result.
6. Refer to local directions regarding the completion of SIDE 2 of the SSID.

6.4 Preparing the Bundle of Answer Documents

Examiners who prepare answer documents for special forms (Braille, large-print, and regular audio administrations) should prepare these documents as separate bundles. **A separate purple SSID sheet must be used for all special forms (Braille, large-print, and regular audio).** Place the purple SSID sheet on top, followed by the used/marked answer documents.

NOTE: The completed and partially completed answer documents for second-opportunity testers using special forms (Braille, large-print, and regular audio) should be bundled SEPARATELY with specials testing materials, using a purple SSID sheet.

The next stack includes the used/marked regular print scorable answer documents bundled with the orange SSID sheet. Include any partially completed answer documents and answer documents for students not tested. Include special test administrations (Braille, large-print, and regular audio) in the bundle of answer documents for students not tested.

NOTE: The completed and partially completed answer documents for read-aloud administrations should be bundled SEPARATELY; also, the completed and partially completed answer documents for second-opportunity testers should be bundled SEPARATELY. Both types of bundles should be included with regular testing materials, using orange SSID sheets.

1. Make sure that the completed SSID sheet and the answer documents are in the proper position.
 - a. SIDE 1 of the SSID sheet must face up and the demographic pages of the answer documents must also face up.
 - b. The black "timing tracks" along the left edge of the SSID sheet must be on the same side of the stack as the timing tracks on the left side of the demographic pages of the answer documents.
 - c. One corner of each answer document has been cut at an angle. If the answer documents have been positioned properly, this corner should line up for all documents in the stack. If not, pull the sheet(s) that is not positioned properly from the stack, turn it so that its corner-cut is aligned with the other documents, and put it back in the stack.
2. Using a paper band, bundle the SSID sheet and the stack of used answer documents.
 - a. On the paper band, write in the information requested as indicated in the PAPER BAND EXAMPLE below. Print your school name and "EOC – Writing" on the paper band(s). **Leave the "_____ of _____" spaces blank.** The STC will fill out this section of the paper band.

PAPER BAND EXAMPLE

School	<u>East Wing HS</u>
Grade	<u>EOC - Writing</u>
	<u> </u> of <u> </u>

- b. If **NO** make-up session(s) is necessary for this classroom, permanently fasten the paper band by attaching its ends to each other with a piece of clear tape. Do **not** tape the paper band to an answer document, or use a staple or paper clip to permanently fasten the paper band. Doing so may result in **damage to or loss of an answer document.**
- c. If a make-up session(s) **WILL** be necessary for this classroom, **do not permanently fasten (such as with tape) the paper band.** In this instance, a paper clip or rubber band can be used as a temporary measure to keep the paper band closed around the stack of answer documents. **The paper band will be permanently secured by the STC after the final (or only) make-up test session that involves students from your classroom.**

6.5 Returning All Test Materials to Your STC After All Testing Is Completed

Return three separate groups of materials to your STC. Group your materials as follows:

- **Group 1— Scorable Secure Answer Documents:** All completed and partially completed **special forms** (Braille, large-print, and regular audio administration) answer documents should be bundled SEPARATELY, each with the appropriately completed **purple** SSID sheet. Place on top of the regular answer documents. All completed and partially completed regular testing answer documents (include answer documents for ALL students not tested) should be bundled with the completed **orange** SSID sheet.

Note: No loose writing papers should be with the scorable answer documents. Only responses written in the answer documents will be scored.

- **Group 2— Secure Test Materials:** (if still in your possession) **all test booklets or writing prompts used in the final test session (include Braille and large-print Examiner's copy and accompanying audiotapes).**

Group 3— Remaining Non-Scorable Materials: (if still in your possession) the completed writing multiple-choice or prompt cover sheets, unused and/or unmarked answer documents, damaged answer documents marked "VOID," scratch paper, and this manual.

Once all materials are in the packaging sequence order, return them to your STC. The STC will verify that you have returned all test materials and will initial the "IN" column on the *SOL Examiner's/Proctor's Test Booklet Transmittal Form/Affidavit* and the *SOL Examiner's/Proctor's Writing Prompt Transmittal Form/Affidavit* or the *SOL Special Test Forms Classroom Transmittal Document*.

**ALL TEST BOOKLETS, WRITING PROMPTS, AUDIOTAPES, AND
EXAMINER'S COPIES MUST BE ACCOUNTED FOR AND RETURNED
TO HARCOURT ASSESSMENT, INC.**

6.6 Signing the *SOL Examiner's/Proctor's Test Booklet Transmittal Form/Affidavit* and *SOL Examiner's/Proctor's Writing Prompt Transmittal Form/Affidavit* or the *SOL Special Test Forms Classroom Transmittal Document*

After all *SOL English: Writing* tests have been given and materials returned to your STC, you are required to sign an affidavit, certifying the following:

1. the tests have been administered according to the directions in the *Examiner's Manual*
2. test questions and writing prompts have not been reproduced in any way
3. no inappropriate test preparation activities have been conducted

Your STC will provide you and any Proctors (if applicable) with the opportunity to sign these forms. You can find a sample of the *SOL Special Test Forms Classroom Transmittal Document* in Appendix I. Samples of the *SOL Examiner's/Proctor's Test Booklet Transmittal Form/Affidavit* and the *Examiner's/Proctor's Writing Prompt Transmittal Form/Affidavit* are in Appendix J.

7. MAKE-UP TESTING

Every student who is absent on July 19 or 20 and/or July 21, 2004, must be given an opportunity to take the multiple-choice or direct writing component of the *Writing* test on a make-up basis, **provided the make-up sessions are within the testing window.**

Students who miss the administration of the multiple-choice component on July 19 or 20 will use the same multiple-choice component taken by students who were in attendance that day. Students who miss the administration of the direct writing component on July 21 will be given a different prompt for make-up testing.

Your STC will provide you with information regarding the schedule for make-up testing sessions.

**IF YOU ARE TO SERVE AS AN EXAMINER FOR MAKE-UP TEST SESSION(S),
PLEASE REMEMBER THE FOLLOWING IMPORTANT POINTS:**

To help ensure complete and proper scoring of test results, each student must use only **ONE** answer document in which all multiple-choice answers and her/his direct writing response will be entered. Therefore:

1. If a student taking the multiple-choice component on a make-up basis has already taken the direct writing test, you must obtain from the STC the answer document in which the student wrote her/his writing response.
2. If a student taking the direct writing test on a make-up basis has already taken the multiple-choice component, you must obtain from the STC the answer document in which the student recorded her/his multiple-choice responses.

THANK YOU

We appreciate your time and effort in participating in
the End-of-Course *English: Writing* Standards of Learning (SOL) Assessments.

APPENDIX A
Virginia Department of Education
Standards of Learning (SOL) End-of-Course *English: Writing* Test

SUMMER 2004
TEST SECURITY GUIDELINES

Listed below are guidelines to assist those persons involved in the administration of the Standards of Learning (SOL) *English: Writing* tests in determining what actions may compromise test security.

1. Students must never be exposed to unreleased test items or to the answers to unreleased test items prior to or following test administration. **Use of unreleased test items in any form (including rewording of such test items) is STRICTLY PROHIBITED.**
2. The tests must be administered strictly in accordance with the instructions outlined in the SOL test *Examiner's Manuals*. Directions that are to be read to the students must be read exactly as they are written.
3. No test item which will be scored to obtain student test results may be used as a sample or practice item for learning how to mark responses. Sample items are included in the SOL test booklets to familiarize students with the format of the items and the procedures for marking their answers.
4. Copying **ALL OR ANY PART** of an SOL test booklet/writing prompt or taking notes about the items included on an SOL test is **STRICTLY PROHIBITED.**
5. All persons are prohibited from attempting to formally or informally score answer documents.
6. All persons are prohibited from providing students with the answer to any unreleased test item and from making any suggestion as to how to respond to a test item/writing prompt at any time, whether before, during, or after test administration. This prohibition includes provision of cues, clues, hints, and/or actual answers in any written, printed, verbal, and/or non-verbal form (including chalkboards, charts, and bulletin boards).
7. All persons are prohibited from changing students' answers to test items whether by providing hints or clues during test administration, correcting wrong answers during test administration, or by erasing or correcting answers or responses recorded by the student.
8. All known violations of test security procedures shall be reported in writing; signed by the person making the report; and addressed to Division of Assessment and Reporting, Virginia Department of Education. The Virginia Department of Education shall investigate all such infractions and take action as necessary.

This page may be photocopied.

**VIRGINIA DEPARTMENT OF EDUCATION
STANDARDS OF LEARNING (SOL) ASSESSMENTS
SUMMER 2004**

EXAMINER'S/PROCTOR'S TEST SECURITY AGREEMENT

I acknowledge that I will have access to the **Standards of Learning (SOL) Assessments** for the purpose of administering the SOL tests. I also acknowledge that I have read, understand, and agree to adhere to the *Test Security Guidelines* in Appendix A of this manual for the End-of-Course *English: Writing* test.

I understand that these materials are highly secure, and it is my professional responsibility to protect their security as follows:

1. I will not divulge the contents of the test to anyone.
2. I will not copy or take notes about any part of the test.
3. I will not allow access to the test materials to any student or to any other person not so authorized by the School Test Coordinator.

Signed: _____

Print Name: _____

Position: _____

School: _____

Division: _____

Date: _____

NOTE: Interpreters and all individuals involved in transcriptions of student responses must also read and sign the test security agreement.

This page may be photocopied.

Please note the Virginia General Assembly in its 2000 session enacted the following legislation regarding test security:

§ 22.1 - 292.1. Violation of test security procedures: revocation of license.

A. The Board of Education may suspend or revoke the administrative or teaching license it has issued to any person who commits any of the following acts knowingly and willfully with the intent to compromise secure mandatory tests administered to students as required by this title or by the Board of Education:

1. Giving unauthorized access to secure test questions;
2. Copying or reproducing all or any portion of any secure test booklet;
3. Divulging the contents of any portion of a secure test;
4. Coaching or assisting examinees during testing or altering examinees' responses in any way;
5. Making available any answer keys;
6. Failing to follow test security procedures established by the Department of Education;
7. Providing a false certification on any test security form required by the Department of Education;
8. Retaining a copy of secure test questions; and
9. Participating in, directing, aiding, assisting in, or encouraging any of the acts prohibited by this section.

For the purposes of this section, "secure test" means an item, question, or test that has not been made publicly available by the Department of Education.

Nothing in this section shall be construed to prohibit educational personnel from providing input to administrators or other authorized personnel, including school board members and members of the General Assembly, except when done in a manner that violates test integrity or security regarding the accuracy, clarity, or propriety of test items or test administration procedures.

- B. Nothing in this section shall be construed to prohibit or restrict the reasonable and necessary actions of the Board of Education, the Superintendent of Public Instruction, or the Department of Education in test development or selection, test form construction, standard setting, test scoring and reporting, or any other related activities which, in the judgement of the Superintendent of Public Instruction or the Board of Education, are necessary and appropriate.
- C. Any suspension or revocation imposed for the acts enumerated in this section shall be rendered pursuant to Board regulations promulgated pursuant to the Administrative Process Act (§ 9-6.14:1 et seq. and § 22.1-298), governing the licensure of teachers.

VIRGINIA DEPARTMENT OF EDUCATION

**LIMITED ENGLISH PROFICIENT STUDENTS:
GUIDELINES FOR PARTICIPATION IN
THE STANDARDS OF LEARNING ASSESSMENTS**

This document provides information about the participation of limited English proficient (LEP) students in the Standards of Learning (SOL) assessments. Included in this document are 1) guidelines for determining in what ways LEP students will participate in the SOL assessments, 2) procedures for providing testing accommodations, 3) procedures for exempting LEP students from participation in the SOL assessments, and 4) documentation requirements.

I. Who Should Be Tested

It is expected that all students who are in grades 3, 5, 8, and specific high school courses in the Commonwealth of Virginia will participate in the SOL assessments. This expectation includes LEP students at these grade levels/courses unless participation in the test is clearly not in the best interest of the student. LEP students in grades 3, 5, or 8 may exercise a one-time exemption from SOL assessments at any one of these grade levels in the content areas of English: Writing (grades 5 and 8 only); History/Social Science; and Science. (Note: grade 3 English, English: Reading in grades 5 and 8, and Mathematics in grades 3, 5, and 8 are not included in this exemption.) While no exemptions from the grade 3 English; English: Reading tests in grades 5 and 8 are allowed, there are two categories of LEP students that may use the state approved reading subtest of the *Stanford English Language Proficiency* (SELP) assessment as a substitute for these SOL tests. They are: (1) LEP students at proficiency level 1 or level 2 in grades 3, 5, 8, and (2) all LEP students regardless of their English language proficiency level in grades 3, 5, and 8 during their first year of enrollment in a U.S. school. Determination as to how LEP students will participate in the SOL assessments should be made according to the guidelines found in **Section V, Procedures for Determining LEP Students' Participation in the SOL Assessments**.

II. Purpose of the SOL Assessments

The purpose of the SOL assessments is to measure the achievement of students on the Standards of Learning, adopted by the Board of Education in 1995, in the areas of English, mathematics, history/social science, and science at grades 3, 5, 8, and selected high school courses.

III. Definition of LEP

An LEP student in the Commonwealth of Virginia is classified according to the federal government definition as described in Public Law 107-110, the *No Child Left Behind Act* of 2001. The law states:

An LEP student is classified as one:

- A. who is aged 3 through 21;
- B. who is enrolled or preparing to enroll in an elementary school or secondary school;
- C. i) who was not born in the United States or whose native language is a language other than English; and who comes from an environment where a language other than English is dominant;

OR

- ii) (I) who is a Native American or Alaska Native, or a native resident of outlying areas; and
- (II) who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency;

OR

- iii) who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant;

AND

- D. whose difficulties speaking, reading, writing, or understanding the English language may be sufficient to deny the individual —
 - i) the ability to meet the State's proficient level of achievement on State assessments described in section 1111(b)(3) of the *No Child Left Behind Act*;
 - ii) the ability to achieve successfully in classrooms where the language of instruction is English; or
 - iii) the opportunity to participate fully in society.

[P.L. 107-100, Title IX, Part A, Sec. 9101, (25)]

Conforms to changes in the federal definition of Limited English Proficiency effective January 8, 2002.

In its Consolidated State Application, submitted to USED on September 1, 2003, Virginia has further defined limited English proficient (LEP) students as those who are identified as level 1, level 2, level 3, level 4, monitor year 1, or monitor year 2 according to the English Language Proficiency Standards of Learning. At the end of the second year of monitor status, LEP students are classified as non-LEP (formerly LEP). In addition to these students also include those students who have exited LEP monitor status within the last two years. Recent guidance from USED allows Virginia to consider such students as LEP for the purposes of calculating Adequate Yearly Progress (AYP).

IV. Reason for Inclusion of LEP Students in the SOL Assessments

The U.S. Department of Education, Office for Civil Rights has outlined the procedures listed below for school districts to comply with the U. S. Civil Rights Act of 1964, Title VI and other supreme and federal court case decisions regarding the rights of limited English proficient students:

"The following procedures should be used by school districts to ensure that their programs are serving limited English proficient (LEP) students effectively:

- identifying students who need assistance;
- developing a program which, in the view of professional educators, has a reasonable chance for success;
- ensuring that the needed staff, curricular materials, and facilities are in place and used properly; developing appropriate evaluative standards for measuring the progress of students, including program exit criteria; and continued program assessment and modification where needed."

— *The Provision of an Equal Education Opportunity to Limited English Proficient Students*,
U.S. Department of Education, Office for Civil Rights, 1992.

Reinforcing the legal obligations to LEP students, Administrative Superintendent's Memorandum No. 65, September 26, 1997, states:

Legal precedents clearly call for local school divisions to accommodate students whose native language is other than English in a manner whereby they can profit from educational opportunities afforded them. Programs for students identified as limited English proficient (LEP) should include a means of identification, assessment and placement in an appropriate education program.

The importance of LEP students participating in the SOL assessments is reinforced by the fact that, beginning with the Class of 2004, students desiring a standard or advanced studies diploma will need to earn a prescribed number of credits as well as specified units of verified credit. Students may earn verified credit "based on a minimum of 140 clock hours of instruction and the achievement by

Appendix B, continued

the student of a passing score on the end-of-course Standards of Learning test for that course” (8 VAC 20-131-110, B).

V. Procedures for Determining LEP Students’ Participation in the SOL Assessments

It is recommended that a committee which includes 1) a person responsible for the education of LEP students in the school or school division, 2) the student’s content teacher(s), and 3) an administrator or designee (e.g., guidance counselor or reading specialist) be formed to determine how the student will participate in the SOL assessments and which, if any, accommodations are required. The student’s parent or guardian should also be invited to serve on the committee, if possible. For each student the committee should specify the student’s participation in each of the SOL assessments:

- with no accommodations
- with accommodations which maintain standard conditions (listing specific accommodations)
- with accommodations which are permissible but do not maintain standard conditions (listing specific accommodations)
- exemption from testing with an explanation for the exemption (not applicable for reading and mathematics)

Decisions about how an LEP student will be tested on the SOL assessments should be made for each individual content area to be assessed. Consideration should be given to the student’s level of English proficiency, the level of previous schooling in the home language, and the amount of schooling the student has received in the United States. Questions about how to determine the English proficiency of LEP students should be directed to the Foreign Language/ESL Specialist, Office of Secondary Instruction, Virginia Department of Education.

In determining how the student is to be tested on each test, the committee should consider the following questions:

1. Has the student already used the one-time exemption from SOL assessments in an earlier grade level? If yes, go to question 3. If no, should the student be exempted from this test, recognizing that this will be the student’s one-time exemption (not applicable for reading and mathematics)?
2. Is the student’s level of proficiency in English sufficient for the student to take the test? Information on the student’s English language proficiency may be derived from school division assessments designed to determine English language proficiency, reading inventories, writing samples, teacher observations, and teacher-made tests.
 - If “YES”, the committee should consider question 2 in determining the student’s need for testing accommodations.
 - If “NO”, the student should not be tested on this test. **See Section VII, Exempting LEP Students from the SOL Assessments**, for a description of the procedures to be followed in exempting LEP students from the SOL assessments
3. Does the student typically receive accommodations during instruction or during classroom assessments in the content area covered by the test?
 - If “YES”, the committee should review **Section VI, Selection of Testing Accommodations for LEP Students** to determine the LEP student’s need for testing accommodations.
 - If “NO”, the student should take the test without any accommodations.

If an LEP student is also identified as having a disability under the *Individuals with Disabilities Education Act* (IDEA), P.L. 105-17, or is identified as an “otherwise qualified handicapped” student under

Appendix B, continued

Section 504 of the *Rehabilitation Act of 1973*, then decisions about the student's participation in the SOL assessments must be made by the IEP or 504 committee and be documented in the student's IEP or 504 management tool. See the document entitled *Students with Disabilities: Guidelines for Participation in the Standards of Learning Assessments* for more information.

VI. Selection of Testing Accommodations for LEP Students

Accommodations for the SOL assessments should be selected from those the LEP student uses routinely in classroom instruction and assessment. **The purpose of accommodations is to ensure, insofar as possible, that LEP students receive accommodations on the SOL assessments which allow them equal opportunity to demonstrate what they know and can do; however, students should not be provided with unnecessary or inappropriate accommodations.** Furthermore, use of an unfamiliar accommodation during testing may have a negative impact on the student's performance. Students must take the test in English; translations of the test into a different language are not permitted.

A. Accommodations Which Maintain Standard Conditions (Standard Accommodations)

Some accommodations allow a student to take the test in a different way without changing what the test is measuring. For the purposes of this document, these are referred to as accommodations which maintain standard conditions or standard accommodations. Examples of standard accommodations are listed below.

Timing/Scheduling

- time of day
- breaks during test
- multiple test sessions
- order of tests administered

Setting

- preferential seating (at the front of the room or in a study carrel)
- small group testing
- individual testing
- location with minimal distractions

Presentation

- reading the test items in English to the student (except on the *English: Reading/Literature and Research* test)
- reading the directions in English to the student
- simplifying oral directions
- place markers to maintain place

Response

- student responds verbally / teacher or proctor marks answer document

B. Accommodations Which Are Permissible But Do Not Maintain Standard Conditions (Nonstandard Accommodations)

Accommodations which significantly change what a test is measuring and do not maintain standard conditions of the test are referred to in this document as nonstandard accommodations. This type of accommodation should be used only if the committee agrees that the student requires such an accommodation in order to participate in the SOL Assessments. Scores resulting from a nonstandard accommodation must be accompanied by an explanation that these scores resulted

Appendix B, continued

from a nonstandard administration. Examples of accommodations which are permissible but do not maintain standard conditions include:

Presentation

- reading test items in English on the *English: Reading/Literature and Research* test
- bilingual dictionary

Response

- dictation in English to a scribe (writing sample component of the *Writing* test only)

If a student utilizes a nonstandard accommodation, the record of that score will be accompanied by a notation explaining that the score resulted from a nonstandard administration. A student, identified as limited English proficient, who has passed an SOL assessment utilizing any accommodation including a nonstandard accommodation has passed for all purposes.

NOTE: Questions about whether accommodations not listed are allowable should be directed to the Division Director of Testing who may consult with Department of Education staff as necessary.

VII. Exempting LEP Students from the SOL Assessments

In some cases, the committee may decide that participating in the SOL assessments, even with accommodations, is inappropriate for the LEP student in grades 3, 5, or 8. For example, the student's level of English proficiency may be inadequate to attempt any of the tests even with accommodations.

8 VAC 20-131-30, A states "Limited English proficient students may be exempted from the SOL tests for one grade level only in grades 3, 5, and 8. In order to be granted verified credit, all students must meet the clock hour and testing requirements set forth in these regulations." The committee, therefore, may make such an exemption for LEP students at only one grade level in grades 3, 5, and 8. Such exemptions should be documented in the student's file as to reason and the ramifications of such exemptions shall be clearly stated and conveyed to the student's parent or guardian. However, the No Child Left Behind (NCLB) Act does not allow exemptions in reading and mathematics. While no exemptions from the grade 3 English, and English: Reading in grades 5 and 8 tests are allowed, there are two categories of LEP students that may use the state approved reading subtest of the *Stanford English Language Proficiency* (SELP) assessment as a substitute for the *English: Reading Standards of Learning* test. They are: (1) LEP students at proficiency level 1 and level 2 in grades 3, 5, and 8; and (2) all LEP students regardless of their English language proficiency level in grades 3, 5, and 8 during their first year of enrollment in a U.S. school.

VIII. Documentation of Decisions

Decisions about how the LEP student will participate in the SOL assessments should be documented in writing and filed in the student's scholastic record. A decision to exempt the student from testing must be accompanied by the reasons for the exemption, and the ramifications of such exemption. A sample form is provided on the next page of this document. School divisions may use this form or one of their own choosing.

If the student's parent or legal guardian is not a member of the committee making the decision about the student's participation, the parent or legal guardian should be notified in writing of the committee's decision regarding the student's participation in the SOL assessments prior to test administration. If the student is using the one-time exemption from the SOL assessments, the student's parent or legal guardian must be notified in writing of the ramifications of this decision.

Participation decisions may be one of the following:

- with no accommodations
- with accommodations which maintain standard conditions (listing specific accommodations)
- with accommodations which are permissible but do not maintain standard conditions (listing specific accommodations)
- exemption from testing with an explanation for the exemption and a statement of the ramifications of the decision. (not applicable to reading or mathematics)

DOCUMENTING LEP STUDENTS' PARTICIPATION IN THE SOL ASSESSMENTS (SAMPLE)

Student Name: _____ Grade: _____

School: _____

Note below the decisions of the committee convened to determine the appropriate level of participation for the above mentioned student in the _____ (date) SOL Assessments.

SOL Assessment Area	Participation in the SOL Assessment with NO Accommodation	Participation in the SOL Assessment with Standard Accommodation (Please list)	Participation in the SOL Assessment with Nonstandard Accommodation (Please list)	Exempted from Participation in the SOL Assessment*
English: Reading / Literature and Research				
English: Writing (grades 5, 8, and high school)				
Mathematics				
History and Social Science				
Science				

* Students may have a one-time exemption only in grade 3, 5, or 8.

APPENDIX C

GUIDELINES FOR THE PARTICIPATION OF STUDENTS WITH DISABILITIES IN THE ASSESSMENT COMPONENT OF VIRGINIA'S ACCOUNTABILITY SYSTEM

Inclusion of Students with Disabilities in Virginia's Accountability System

It is the intent of the Commonwealth of Virginia to include all students with disabilities in the accountability system. The federal regulations under the Section 504 of the Rehabilitation Act of 1973, as amended, and state regulations under the Virginians with Disabilities Act, Section 51.5-40 *et seq.* of the Code of Virginia, require that individuals with disabilities be given equal opportunity to participate in and benefit from the policies and procedures customarily granted to all individuals. The Individuals with Disabilities Education Act (IDEA) and *Regulations Governing Special Education Programs for Children with Disabilities in Virginia* require that all students with disabilities participate in the Virginia accountability system either through the Standards of Learning assessments or the Virginia Alternate Assessment Program. Additionally, the No Child Left Behind Act of 2001, P.L. 107-110, requires that at least 95% of students with disabilities participate in assessments used to measure the adequate yearly progress of schools, school divisions, and the state. Schools, school divisions, or states that fail to meet the 95% participation requirement will not be considered to have met the required adequate yearly progress.

Participation Decisions

For all students with disabilities identified under IDEA, the individualized education program (IEP) team determines how the student will participate in the accountability system. For students identified under Section 504 of the Rehabilitation Act of 1973, the 504 committee determines how the student will participate. The ramifications of decisions made by the IEP team/504 committee must be clearly explained to the student's parent, legal guardian, or surrogate parent and the student if appropriate. A student's IEP or 504 plan must specify the student's participation in the assessment component of Virginia's accountability system as follows:

- participation in the Standards of Learning assessments
 - with no accommodations
 - with accommodations based upon the accommodations the student needs during classroom instruction and assessment
 - non-participation in a Standards of Learning assessment with an explanation of why the student is not participating, a statement of the ramifications of the decision, and a description of how the student will be assessed in this area
- participation in the Virginia Alternate Assessment Program

When determining participation in Virginia's accountability system, all students with disabilities must be first considered for participation in the Standards of Learning assessments.

The Department of Education document entitled, *Procedures for Determining Participation in the Assessment Component of the Virginia's Accountability System*, provides the IEP team or 504 committee with more detailed information about the process used in making decisions regarding the participation of students with disabilities in the accountability system.

Appendix C, continued

Standards Of Learning Assessment Program

Participation of Students with Disabilities in Grades 3, 5, and 8

Students with disabilities in grades 3, 5, and 8 must participate in each of the Standards of Learning assessments unless they have not received instruction in the content measured by the assessment. Decisions about participation must be made for each assessment separately. Should the IEP team/504 committee determine that non-participation is appropriate, the IEP/504 plan must state why the assessment is not appropriate and describe how the child will be assessed in that area. Students with disabilities in grade 3, 5, and 8 who do not participate in any of the Standards of Learning assessments in the respective grade level will be assessed through the Virginia Alternate Assessment Program according to the criteria established for participation in the alternate assessment program.

Participation of Students with Disabilities at the Secondary Level

Students with disabilities must take all applicable Standards of Learning end-of-course tests if they are enrolled in that course intending to earn a standard unit of credit. Students who are auditing a course or who are being instructed in only part of the content for that course do not take the Standards of Learning end-of-course test.

Testing Accommodations for Students with Disabilities in the Standards of Learning Assessment Program

Decisions about the need for and selection of accommodations for students with disabilities are the responsibility of the IEP team or 504 committee. The use of accommodations by a student when participating in the Standards of Learning assessments must be determined individually for each test and identified in the student's IEP or 504 plan. Accommodations allow students with disabilities an equal opportunity to demonstrate their achievement.

Accommodations should be those that the student needs during classroom instruction and assessments as identified in the student's IEP or 504 plan. Accommodations should not be used only for participation in a Standards of Learning assessment(s).

Typically, accommodations can be classified in the following categories:

- timing/scheduling
- setting
- presentation
- response.

Accommodations may also be classified as standard or nonstandard. Standard accommodations allow the student to take a test in a different way without changing what the test is measuring.

Accommodations that significantly change what the test is measuring are referred to as non-standard accommodations. A student, who has passed a Standards of Learning assessment utilizing any accommodation, including a non-standard accommodation, has passed for all purposes, including earning a verified credit.

A list of standard and nonstandard accommodations is provided to school divisions in the Department of Education's *Procedures for Determining Participation in the Assessment Component of the Virginia's*

Appendix C, continued

Accountability System. Questions about any accommodations not listed should be directed to the school division's director of testing who will consult with Department of Education staff as needed.

Virginia Alternate Assessment Program

Participation in Virginia's Alternate Assessment Program for Students in Grades 3, 5, and 8

Only students with disabilities who have an IEP and who are not participating in any Standards of Learning assessments at their grade level (3, 5 and 8) may be considered for participation in the Virginia Alternate Assessment Program. In addition, to participate in the alternate assessment program, the student must demonstrate impairments that prevent the completion of curriculum based on the Standards of Learning even with program and assessment accommodations. Also, the student's present level of performance must indicate a need for extensive, direct instruction and/or intervention in a life skills curriculum. Finally, the student must require intensive, frequent, and individualized instruction in a variety of settings to show progress and acquire, maintain, or generalize life and/or functional academic skills.

Participation in Virginia's Alternate Assessment Program for Students in Grade 11

Only students with disabilities who have an IEP and who are not participating in any Standards of Learning assessments may be considered for participation in the Virginia Alternate Assessment Program. In addition, to participate in the alternate assessment program, the student must demonstrate impairments that prevent the completion of curriculum based on the Standards of Learning even with program and assessment accommodations. Also, students participating in the Alternate Assessment Program must be working toward educational goals other than those prescribed for a modified standard, standard, or advanced studies diploma. In addition, the student's present level of performance should indicate a need for extensive, direct instruction and/or intervention in a life skills curriculum. Finally, the student should require intensive, frequent, and individualized instruction in a variety of settings to show progress and acquire, maintain, or generalize life and/or functional academic skills.

Additional Information

The Department of Education document entitled, *Procedures for Determining Participation in the Assessment Component of the Virginia's Accountability System*, provides the IEP team or 504 committee with more detailed information about the process used in making decisions regarding the participation of students with disabilities in the accountability system.

VIRGINIA DEPARTMENT OF EDUCATION'S PROCEDURES FOR PARTICIPATION OF STUDENTS WITH DISABILITIES IN THE ASSESSMENT COMPONENT OF VIRGINIA'S ACCOUNTABILITY SYSTEM

This document provides information about the participation of students with disabilities in the assessment component of Virginia's accountability system. For students with disabilities this means participation through the Standards of Learning assessments or the Virginia Alternate Assessment Program. Included in this document are:

1. guidelines for determining how students with disabilities will participate in the Standards of Learning assessments or the Virginia Alternate Assessment Program,
2. procedures for providing testing accommodations for the Standards of Learning assessments, and
3. documentation requirements.

Including Students with Disabilities in Virginia's Accountability System

It is the intent of the Commonwealth of Virginia to include all students with disabilities in the assessment component of Virginia's accountability system. The federal regulations under Section 504 of the Rehabilitation Act of 1973, as amended, and state regulations under the Virginians with Disabilities Act, Section 51.5-40 *et seq.* of the Code of Virginia, require that individuals with disabilities be given equal opportunity to participate in and benefit from the policies and procedures customarily granted to all individuals. The Individuals with Disabilities Education Act (IDEA), P.L. 105-17, regulations require that all students with disabilities participate in the state's accountability system. Additionally the No Child Left Behind Act of 2001, P.L. 107-110, requires that at least 95% of students with disabilities participate in assessments that measure adequate yearly progress of schools, school divisions, and the Commonwealth of Virginia.

For all students with disabilities identified under IDEA, the individualized education program (IEP) team determines how the student will participate in the accountability system. For students identified under Section 504 of the Rehabilitation Act of 1973, the 504 committee determines how the student will participate. A student's IEP or 504 plan must specify the student's participation in either of the following according to the set criteria for participation:

The Standards of Learning Assessments, or

The Virginia Alternate Assessment Program.

When determining participation in Virginia's accountability system, all students with disabilities must be first considered for participation in the Standards of Learning assessments.

STANDARDS OF LEARNING ASSESSMENTS

I. Including Students with Disabilities in the Standards of Learning Assessments

It is expected that all students, including students with disabilities who are in grades 3, 5, and 8 and those enrolled in courses that have an end-of-course Standards of Learning test, will participate in the Standards of Learning assessments. A current list of all Standards of Learning assessments can be found on the Department of Education's web site at www.pen.k12.va.us/VDOE/Assessment/home.shtml or is available from the Department of Education upon request.

The importance of the participation of students with disabilities in the Standards of Learning assessments is reinforced by the fact that, beginning with the students who entered the 9th grade in the fall of 2000, students desiring a standard diploma or advanced studies diploma will need to earn a prescribed number of verified credits. To receive a verified credit the student must earn a passing score on the Standards of Learning tests or a substitute test(s), as outlined in the Regulations Establishing Standards for Accrediting Public Schools in Virginia (www.pen.k12.va.us/VDOE/Accountability/soa.html). Additionally, to receive a modified standard diploma¹ a student with a disability must pass literacy and numeracy competency assessments which are currently the Standards of Learning Grade 8 English: Reading/Literature and Research and the Standards of Learning Grade 8 Mathematics tests.

II. Role of the Individualized Education Program (IEP) Team

(For students identified under Individuals with Disabilities Education Act)

For all students with disabilities identified under IDEA, the individualized education program (IEP) is the plan to ensure that they receive an appropriate education. The IEP process also ensures that each student's parent(s)² is an active participant of the IEP team. Decisions about the participation in each of the Standards of Learning assessments, the need for and selection of accommodations, or the non-participation in a Standards of Learning assessment are the responsibility of the IEP team. These decisions should be made during the IEP team meeting that precedes the Standards of Learning assessment administration. If the decisions are not reflected on the current IEP, an IEP meeting must be held to address and document these issues on the IEP prior to the test administration. The ramifications of these decisions made by the IEP team must be clearly explained to and understood by the student's parent(s) and the student if appropriate.

¹ Modified Standard diploma is only available to students with disabilities under IDEA as defined by Regulations Establishing Standards for Accrediting Public Schools in Virginia.

² See the Regulations Governing Special Education Programs for Children with Disabilities in Virginia for the definition of parent for a child with a disability, 8VAC20-80-10. The parental rights transfer to the student when they reach the age of majority (18 in Virginia) unless certain procedures specified in regulations have been followed, 8 VAC 20-80-72.

Appendix C, continued

A student's IEP must specify the student's participation in each of the Standards of Learning assessments as follows:

- participation with no accommodations,
- participation with standard and/or non-standard accommodations, or
- non-participation in a Standards of Learning assessment with an explanation of why the student is not participating, a statement of the ramifications of the decision not to participate, and a description of how the student will be assessed in this area (see VI of this section, Non-Participation by Students With Disabilities in a Standards of Learning Assessment(s)).

III. Role of the 504 Committee

(For students identified under Section 504 of the Rehabilitation Act of 1973, as amended, and do not have an IEP)

Each local education agency is required to determine appropriate educational programs for all students with disabilities who qualify under Section 504 of the Rehabilitation Act of 1973, as amended, by convening a knowledgeable group to evaluate and determine program needs. Therefore, decisions about the participation in each of the Standards of Learning assessments, the need for and selection of accommodations, or the non-participation in a Standards of Learning assessment are the responsibility of a 504 committee of similar composition. Each student's parent, legal guardian or surrogate parent must be a participant in these decisions. These decisions should be made during the 504 committee meeting which precedes the Standards of Learning assessment administration. If the decisions were not made, a 504 committee meeting must be held to address these issues prior to the test administration. The ramifications of the decision must be clearly explained to and understood by the student's parent, legal guardian, or surrogate parent and the student if appropriate. A student's 504 plan must specify the student's participation in each of the Standards of Learning assessments as follows:

- participation with no accommodations,
- participation with standard and/or non-standard accommodations, or
- non-participation in a Standards of Learning assessment with an explanation of why the student is not participating, a statement of the ramifications of the decision not to participate, and a description of how the student will be assessed in this area (see VI of this section, Non-Participation by Students With Disabilities in a Standards of Learning Assessment(s)).

IV. Determination of How Students with Disabilities Participate in the Standards of Learning Assessments

It is expected that all students with disabilities in grades 3, 5, and 8 as well as those enrolled in courses that have an end-of-course Standards of Learning test will participate in the Standards of Learning assessments. Only the student's IEP team or 504 committee may determine non-participation in grades 3, 5, and 8 (see VI of this section, Non-Participation by Students With Disabilities from a Standards of Learning Assessment(s)). Students with disabilities who participate in the Standards of Learning assessments will participate either with accommodations or without accommodations.

Decisions about participation in and how a student with a disability will be tested on the Standards of Learning assessments should be made independently for each Standards of Learning test. In

Appendix C, continued

determining how the student is to be tested on the Standards of Learning assessments, the IEP team or 504 committee must base its determination on the fact that the Standards of Learning assessments in grades 3, 5, and 8 measures content covered in previous grades.

NOTE: IEP teams and 504 committees will find the released Standards of Learning test items and the Standards of Learning test blueprints useful in comparing the information on the Standards of Learning assessments with the information covered in the classroom (found at www.pen.k12.va.us/VDOE/Assessment/home.shtml).

The IEP team or 504 committee, when determining how the student is to be tested on the Standards of Learning assessments, needs to consider the following questions:

- 1) Has the student received instruction in the content covered by the Standards of Learning assessment? (This question shall be repeated for each Standards of Learning assessment in the four content areas of English, mathematics, science, and history/social sciences in grades 3, 5, and 8) and/or

Is the student enrolled in a course for which there is a Standards of Learning end-of-course test?

- If yes, the student takes the assessment and the IEP team or 504 committee then considers the student's need for testing accommodations as indicated in question 2.
- If no, the student should not be tested on this particular Standards of Learning assessment (see VI of this section, Non-Participation by Students With Disabilities in a Standards of Learning Assessment(s)).

If the IEP team answers "no" for all Standards of Learning assessments in grades 3, 5 or 8, the IEP team shall refer to Virginia Alternate Assessment Program section to determine if the student meets the criteria to participate in the Virginia Alternate Assessment Program.

NOTE: The No Child Left Behind Act of 2001 requires that at least 95% of students with disabilities participate in state assessments that measure adequate yearly progress. These assessments are currently in the areas of reading/language arts and mathematics and will include science beginning in 2007-2008.

The IEP team or 504 committee must remember that there are approved substitute test(s) for end-of-course tests that may be used for earning verified credit (see Virginia Department of Education's document, Substitute Tests for Verified Credit, at www.pen.k12.va.us/VDOE/Assessment/home.shtml).

- 2) Does the student receive accommodations during instruction or classroom assessments in the content covered by the test?
 - If no, the student should take the assessment without any accommodations.
 - If yes, the IEP team or 504 committee should determine the accommodations needed by the student and document this decision on the student's IEP or 504 plan. Refer to V of this section, Testing Accommodations for Students with Disabilities, to determine if an accommodation is either standard or nonstandard.

Appendix C, continued

V. Testing Accommodations for Students with Disabilities

The IEP team or 504 committee has the responsibility for decisions about the need for and selection of accommodations for students with disabilities. Accommodations allow students with disabilities an equal opportunity to demonstrate their achievement. Typically, accommodations can be classified in the following categories: timing/scheduling, setting, presentation, and response. The use of accommodations by a student when participating in the Standards of Learning assessments must be determined individually for each Standards of Learning test and identified in the student's IEP or 504 plan. An example of how an IEP or the 504 plan may document the use of accommodations is:

Standards of Learning Assessments			
Standards of Learning TESTS (list test)	PARTICIPATION	ACCOMMODATIONS	If <u>YES</u> , List Accommodation(s)
	___ Yes ___ No	___ Yes ___ No	
	___ Yes ___ No	___ Yes ___ No	
	___ Yes ___ No	___ Yes ___ No	

Mark any nonstandard accommodation with an asterisk (*). These test scores will be reported as scores that result from a nonstandard administration.

EXPLANATION FOR NON-PARTICIPATION AND HOW THE STUDENT WILL BE ASSESSED
If no is checked for any test, explain in the space below why the student will not participate in this test, the impact relative to promotion or graduation, and how the student will be assessed in these areas.

Accommodations should be those the student needs and uses during classroom instruction and assessments as identified in the student's IEP or 504 plan. Accommodations should not be used only for participating in a Standards of Learning assessment(s). The student should be familiar with an accommodation because the use of an unfamiliar accommodation during testing may have a negative impact on the student's performance. Finally, an accommodation based solely on its potential to enhance performance beyond providing equal opportunity to perform is inappropriate.

Accommodations that allow a student to take the test in a different way without changing what the test is measuring are referred to as "accommodations which maintain standard conditions" or "standard accommodations." Accommodations that significantly change what a test is measuring and do not

Appendix C, continued

maintain standard conditions of the test are referred to as “nonstandard accommodations.” Examples of both standard and nonstandard accommodations are listed below.

NOTE: Special procedures (see Appendix A) are to be followed for each of the following accommodations marked with an asterisk (*).

TIMING/SCHEDULING

Standard Accommodations

- time of day
- breaks during test
- multiple test sessions *
- order of tests administration

SETTING

Standard Accommodations

- preferential seating (e.g., at the front of the room or in a study carrel)
- small group testing
- individual testing (one-on-one)
- special lighting
- adaptive or special furniture
- test administered in locations with minimal distractions
- noise buffers
- hospital/home/non-school setting

PRESENTATION

Standard Accommodations

- Braille *
- large print *
- enlarging the answer document
- reading directions to students
- simplifying directions
- interpreting/transliterating directions (e.g., sign language, cued speech) *
- written directions to accompany oral directions
- clarifying directions
- reading of test items aloud (this is a nonstandard accommodation on the English: Reading test) *
- audio-tape version of test items (this is a nonstandard accommodation on the English: Reading test) *
- interpreting/transliterating (e.g., sign language, cued speech) test items (this is a nonstandard accommodation on the English: Reading test) *

Appendix C, continued

- magnifying glass
- amplification equipment (e.g., hearing aid or auditory trainer)
- templates
- masks or markers to maintain place

Nonstandard Accommodations

- reading test items aloud on the English: Reading test *
- using audio-cassette version of the English: Reading test *
- interpreting/transliterating (sign language, cued speech) test items on the English: Reading test *

RESPONSE

Standard Accommodations

- student marks booklet and teacher/proctor transfer answers to answer sheet *
- student responds verbally, points, or indicates an answer and teacher/proctor marks answer sheet *
- abacus
- arithmetic tables (standard accommodation only if test allows a calculator)
- braille *
- large diameter/ special grip pencil
- pencil grip
- word processor *
- typewriter *
- augmentative communication device *
- spell check (including spell checkers)
- spelling dictionary
- tape recorder (only for pre-writing activity to tape response for English writing test)

Nonstandard Accommodations

- dictation to a scribe (writing sample component of the English writing test only) *
- use of a calculator on grade 3 mathematics test and on the computation section of the grade 5 mathematics test (calculators are not routinely supplied to all students)

Nonstandard Accommodations (cont.)

- use of arithmetic tables on grade 3 mathematics test and on the computation section of the grade 5 mathematics test (an arithmetic table is considered comparable to a calculator and calculators are not routinely supplied to all students)
- use of a calculator with additional functions to those routinely supplied to all students

If a student utilizes a nonstandard accommodation, the record of that score will be accompanied by a notation explaining that the score resulted from a nonstandard administration. A student with a disability, who has passed a Standards of Learning assessment utilizing any accommodation, including a nonstandard accommodation, has passed for all purposes including earning a verified credit.

Appendix C, continued

NOTE: Questions about any accommodations not listed here and whether the accommodation results in a standard or nonstandard administration of the test should be directed to the local education agency's Director of Testing who will consult with Department of Education staff as needed. Accommodations that violate test security are not permitted.

VI. Non-Participation of Students with Disabilities in a Standards of Learning Assessment(s)

A. Standards of Learning Assessments for Grades 3, 5, and 8

Non-participation in a Standards of Learning assessment in grades 3, 5, and 8 should be considered only for students who have not received instruction in content covered by the Standards of Learning assessment. The IEP team or 504 committee must base its determination on the fact that the Standards of Learning assessments in grades 3, 5, and 8 measure content covered in previous grades.

If the IEP team or 504 committee determines that it is not appropriate for the student to participate in a Standards of Learning assessment, the consequences of this decision must be fully explained so that the student's parent, legal guardian, or surrogate parent and the student, if appropriate, understand the consequences. At the elementary and middle school level these consequences may include:

- The student will not have the opportunity to participate in the school's remediation recovery program, which is available to students who have not passed the English: Reading and/or mathematics Standards of Learning tests in grades 3, 5, and 8;
- Teachers, parents and the student will not receive the information on student progress contained in the Standards of Learning score reports; and
- The student may not have the opportunity to experience a Standards of Learning assessment prior to taking the assessments needed for graduation.

NOTE: The No Child Left Behind Act of 2001 requires that at least 95% of students with disabilities participate in state assessments that measure adequate yearly progress. These assessments are currently in the areas of reading/language arts and mathematics and will include science beginning in 2007-2008.

The following non-participation procedures and practices must be followed by the IEP team or the 504 committee:

1. The IEP team or 504 committee shall review the IEP/504 plan of each student with respect to participation in each of the Standards of Learning assessments.
2. The IEP team or 504 committee must document its determination that a student will not participate in a particular Standards of Learning assessment. This documentation shall include a statement of the reasons why a particular assessment is not appropriate for the student and how the student will be assessed in that area.

The following are not acceptable reasons for why a particular assessment is inappropriate:

- The student's disability;
- The belief that the student may fail the test;

Appendix C, continued

- The belief that the student does not need this assessment to be promoted to the next grade or to graduate with an advanced studies diploma, a standard diploma, a modified standard diploma, a special diploma, or a certificate;
- The student is reading or is performing below grade level;
- The belief that the experience will be too stressful for the student;
- The student's behavior prohibits taking the test with a group; and
- The student has not mastered all of the curriculum that is covered on the 3rd, 5th, or 8th grade Standards of Learning assessments.

This documentation must be attached to or become part of the student's IEP or 504 plan and must indicate that the consequences of this decision have been fully explained to and understood by the student's parent, legal guardian or surrogate parent, or student, if appropriate, and that the parent's and student's due process rights have been explained.

3. a. **Students with a 504 plan** must participate in the Standards of Learning assessment in at least one of the four content areas at grades 3, 5, and 8.
- b. **Students with an IEP** must participate in the Standards of Learning assessment in at least one of the four content areas at grades 3, 5, and 8 or in the Virginia Alternate Assessment Program (VAAP). If the IEP team determines that a student will not participate in any of the Standards of Learning assessments, then the IEP team needs to determine if the student meets the criteria to participate in the VAAP (see Virginia Alternate Assessment Program section). If the student does not meet the criteria, then the student will participate in either the English: Reading or the mathematics test of the Standards of Learning assessment program at grades 3, 5, and 8.

If the parent, guardian, surrogate parent, or student requests non-participation in a particular Standards of Learning assessment, an IEP team or 504 committee will be convened to consider the request. The IEP team or 504 committee should document its deliberations and its decision relative to this request in the student's IEP or 504 plan.

B. Standards of Learning End-of-Course Assessments

Students with disabilities must take all applicable end-of-course Standards of Learning assessments if the student is enrolled in the course. Students who are auditing a course or being instructed in only part of the content and thus not enrolled do not take the Standards of Learning end-of-course assessment. In such cases, the course title and code should reflect the instruction being provided the student.

NOTE: There may be a small number of students with IEPs in grades 9-11 who will not be enrolled in any courses for which there is an end-of-course Standards of Learning assessment, will not be working towards an advanced studies diploma, standard diploma, or modified standard diploma, and will not meet the criteria of the VAAP. For these students, the IEP team must document this on the IEP. This documentation must include a statement of why the VAAP is not appropriate for the student; how the student will be assessed; indicate that the consequences have been fully explained so that the student's parent(s) or the student understand the consequences; and indicate that parent's and student's due process rights have been explained.

If the parent, guardian, surrogate parent, or student requests non-participation in a particular Standards of Learning assessment, an IEP team or 504 committee will be convened to consider the request. The IEP

Appendix C, continued

team or 504 committee should document its deliberations and its decision relative to this request in the student's IEP or 504 plan.

VIRGINIA ALTERNATE ASSESSMENT PROGRAM

The Virginia Alternate Assessment Program (VAAP) is only for those students with disabilities who have an IEP and is considered only after the student has been considered for participation in each of the Standards of Learning assessments.

I. Who Should Be Tested

Only students with disabilities who are eligible under IDEA; have an IEP; and who meet the VAAP guidelines for participation will be assessed through the VAAP. Students with disabilities who have only a 504 plan are not eligible to participate in the VAAP.

II. Purpose of the VAAP Assessments

The purpose of the VAAP is to evaluate the performance of students who have traditionally been exempted from state assessment programs. Amendments to the Individuals with Disabilities Education Act (IDEA 1997) reflect the intent to extend educational accountability and reform to all students, including those with disabilities.

III. Role of the Individualized Education Program (IEP) Team

(For students identified under Individuals with Disabilities Education Act)

For all students with disabilities identified under IDEA, the individualized education program (IEP) is the management tool to ensure that they receive an appropriate education. The IEP process also ensures that each student's parent(s) is an active participant of the IEP team. Decisions about the participation in the VAAP assessment are the responsibility of the IEP team. These decisions should be made during the IEP team meeting that precedes the Standards of Learning assessment administration in grades 3, 5, 8 and 11. If decisions about participation in Virginia's accountability system are not reflected on the current IEP, an IEP meeting must be held to address and document these issues on the IEP prior to the test administration. The ramifications of these decisions made by the IEP team must be clearly explained so that the student's parent(s) and the student, if appropriate, understand the consequences. Additionally, parent(s) and student should be provided with an explanation of their due process rights.

IV. Determination if Students with Disabilities Participate in the VAAP

Only students with disabilities who have an IEP, who are in grades 3, 5, 8 and 11, and who are non-participants in all Standards of Learning assessments at that grade level (3, 5 and 8) or who are working toward educational goals other than those prescribed for a modified standard diploma, standard diploma, or advanced studies diploma (grade 11) are considered for participation in the VAAP. The IEP team has the responsibility to determine and document that the student meets all of the following criteria by answering "yes" for each of the statements. If team members determine that the student does not meet a specific criterion, this indicates the student is not a candidate for alternate assessment and should be considered for appropriate participation in the Standards of Learning Assessments.

The IEP team should answer questions 1 – 4 for all students in elementary and middle school for whom the VAAP is being considered and should answer questions 1 – 5 for all students who are in high school for whom the VAAP is being considered.

Appendix C, continued

Section 1

(Answer for all students being considered for the VAAP)

1. Does the student have a current IEP?
2. Does the student demonstrate impairments that prevent completion of curriculum based on the Standards of Learning even with program and testing accommodations? (*data sources: psychological evaluation, intelligence and achievement test, social adaptive behavior test results, observations from parents and teachers, social maturity data, curricular content, etc.*)
3. Does the student's present level of performance indicate the need for extensive, direct instruction and/or intervention in a life skills curriculum that may include personal management, recreation and leisure, school and community, vocational, functional academics, communication, social competence and motor skills to accomplish the application and transfer of life skills? (*data sources: informal and formal assessment results, checklists, data logs, work samples, structured or spontaneous observations from teachers and parents, measurable IEP goals, scheduling matrix, curricular content, list of necessary supports, etc.*)
4. Does the student require intensive, frequent, and individualized instruction in a variety of settings to show progress and acquire, maintain, or generalize life and/or functional academic skills? (*data sources: measurable IEP goals, scheduling matrix, instructional strategies effectiveness data, list of various inclusive settings, learning style inventory, etc.*)

Section 2

(Answer for all students in high school who are being considered for the VAAP)

5. Is the student working toward educational goals other than those prescribed for a modified standard, standard or advanced studies diploma program? (*data sources: list of diploma options and requirements, curricular content, measurable IEP goals, transition plan, parent and student discussion, etc.*)

If the answer to all questions 1 – 4 for all students in elementary and middle school for whom the VAAP is being considered is “yes”, then the student participates in the VAAP. If the student does not meet a specific criterion, this indicates the student is not a candidate for alternate assessment and then the student will participate in either the English: Reading or the mathematics test of the Standards of Learning assessment program at grades 3, 5, and 8.

If the answer to all questions 1 – 5 for all students who are in 11th grade for whom the VAAP is being considered is “yes” then the student participates in the VAAP. There may be a small number of students with IEPs in grades 9-11 who will not be enrolled in any courses for which there is an end-of-course Standards of Learning assessment, will not be working towards an advanced studies diploma, standard diploma, or modified standard diploma, and will not meet the criteria of the VAAP. For these students, the IEP team must document this on the IEP. This documentation shall include a statement of why the VAAP is not appropriate for the student; how the student will be assessed; indicate that the consequences have been fully explained so that the student’s parent(s) or the student understand the consequences; and indicate that parent’s and student’s due process rights have been explained.

APPENDIX A

PROCEDURES TO FOLLOW IN PROVIDING STUDENTS WITH CERTAIN ACCOMMODATIONS ON THE VIRGINIA STANDARDS OF LEARNING ASSESSMENTS

INTRODUCTION AND OVERVIEW

This specifies procedures to be used when providing students with disabilities with certain accommodations on the Standards of Learning assessments.

ACCOMMODATION IN TIMING/SCHEDULING

Multiple Test Sessions

The Standards of Learning tests are not timed. However, some students may be unable to concentrate for a long period of time or may have short attention spans. For such a student, it may be advisable to divide up the test into segments which the student can accomplish and check over in one session/sitting; and to schedule these short sessions over several days. The student may not go back to a previous segment once the segment has been completed.

The direct-writing assessment must be conducted in one sitting. The session should be scheduled for a period long enough to accommodate the needs of the student.

ACCOMMODATIONS IN PRESENTATION

All students should be experienced in or provided training in the test format before attempting the test. This is best provided as part of regular instruction well in advance of the actual test administration.

Braille

A copy of the Braille tests will be provided in regular print to test examiners or proctors working with Braille readers. If needed, transcriber's notes will accompany the Braille booklets.

If the student's answers are recorded on a Braille answer sheet, the responses must be transcribed to the regular answer document by a school official qualified to transcribe Braille. The regular answer document and Braille answer sheet must be verified by a second school official to ensure that no errors in transcription occurred. The Braille answer sheet shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Large Print

If the student marks the answers on an enlarged copy of the answer booklet, the student's answers must be transcribed to the regular answer document by a school official. The regular answer document and

Appendix C, continued

large-print answer sheet must be verified by a second school official to ensure that no errors in transcription occurred. The large-print answer sheet shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Interpreting /Transliterating Directions (e.g., sign language, cued speech)

Testing sessions for students who are deaf or have hearing impairment who normally communicate in sign language or using cued speech may include a qualified interpreter or transliterator for test directions or to interpret/transliterate questions answered by the test examiner. (The interpreter's role and code of ethics prohibits answering questions directly). The test examiner, who must be present for the testing session, must read the test directions as presented in the Test Examiner's Manual aloud so that they can be interpreted/transliterated. Student questions must be directed to the test examiner and answered by him or her, and the interpreter/transliterator will communicate the response. The interpreter/transliterator should also communicate sample questions or test questions that are read aloud as part of the test directions.

Interpreting /Transliterating (e.g., sign language, cued speech) Test Items

The test examiner must be very careful when an interpreter/transliterator is used to interpret/transliterate test items so as not to lead the student to a correct answer by facial expression or by repeating any part of the test which is not specifically requested by the student. An interpreted/transliterated administration must be proctored. The test examiner and the proctor must verify in writing that the test administration was conducted according to the standardized procedures. This written verification shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Reading of Test Items Aloud

The test examiner must be very careful when reading the tests aloud not to lead the student by intonation or to repeat any part of the test which is not specifically requested by the student. In particular, care must be taken to describe graphics without leading the student to the correct response. The audiocassette provides a taped version of the test instructions and test items. The examiner who is to read the tests aloud should consult the tape for the standard approach to reading the material. A printed test (either regular or large-print) or a Braille copy of the test should be used in conjunction with reading the test aloud in order to provide the student multi-sensory stimulation. Test items must be read in English.

For a read-aloud administration, an audiotape recording must be made of the entire testing session. The audio recording of the testing session shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Appendix C, continued

Audiotape Version of Test

This is the preferred type of read-aloud administration as it provides uniform administration statewide.

The student should have instructional experience with audiocassettes, such as using audiocassette versions of textbooks or taping lectures in class. Unless the student has experience with using audiocassettes, the audiocassette may cause more difficulty than assistance.

The audiocassette may be used in conjunction with a printed test (either regular or large-print) or a Braille test.

ACCOMMODATIONS IN RESPONSE

It is important to remember that even when accommodations are provided, all responses on the assessments should be the student's response, not one interpreted by others.

Student Marks Booklet and Teacher/Proctor Transfer Answers to Answer Sheet

When this accommodation is chosen, student responses must be transcribed to the regular answer document by a school official. The regular answer document and test booklet must be verified by a second school official to ensure that no errors in transcription occurred. The test booklet shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Student Responds Verbally, Points, Uses Augmentative Device with Auditory Output, or Indicates an Answer and Teacher/Proctor Marks Answer Sheet

Students who are unable to respond to test items by marking the regular answer document, a Braille or large-print answer sheet, or in a test booklet may have a teacher/proctor record the answers. A audiotape must be made of the exchange. Student responses must be transcribed to the regular answer document by a school official. The regular answer document and audiotaped record must be verified by a second school official to ensure that no errors in transcription occurred. The audiotaped record shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Brailier

Blind and low-vision students may use a Braillewriter to write essays or record answer choices to multiple-choice questions on the Standards of Learning tests. Student responses must be transcribed to

Appendix C, continued

the regular answer document by a school official qualified to read Braille. If a student has written his/her response to the writing assessment with a Braillewriter and has used Braille shorthand, the transcriber shall request the student to spell the English words. The regular answer document and Brailled material must be verified by a second school official to ensure that no errors in transcription occurred. The Brailled material shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Word Processor, Typewriter or Augmentative Communication Device

This accommodation is available for students who are blind or have visual impairments, who do not read Braille, and students who have an orthopedic impairment, a specific learning disability or other disability that interferes with the composing process. It allows these students to use a typewriter, word processor, or augmentative communication device to complete the direct-writing assessment portion of the Standards of Learning writing tests. Only augmentative communication devices, which produce student responses verbatim, may be used. If the augmentative communication device produces an auditory output, it should be treated as dictation to a scribe (see next section). It must be documented that the student uses a typewriter, word processor, or augmentative communication device for his/her written work.

The typed or printed essay must be transcribed to the regular answer document by a school official. The regular answer document and student production must be verified by a second school official to ensure that no errors in transcription occurred. The student's production shall be retained on file in the office of the Division Director of Testing until the scores are received and verified.

Because the regular administration of the direct writing assessment allows the use of a dictionary, a hand-held "spell checker" or the spell checking capacity of a computer can be used, but the student must not be prompted to use it. A document stating that the typed or printed essay is entirely the student's own, and that no "grammar checker" was used must be signed by the student, test examiner, and proctor, and filed with the student's permanent records.

Dictation to a Scribe

Writing Assessment only

The student will dictate (or use an augmentative communication device with auditory output) his/her response to the writing assessment in English to a second person (scribe) who will transcribe it. The session between the student and scribe must be recorded on audiotape and given to Division Director of Testing along with the transcription. The scribe, who should have experience working with the student, must format, capitalize and punctuate only as directed by the student. The scribe's transcription and taped record must be verified by a second school official to ensure that no errors in transcription occurred. The scribe's transcription and taped record shall be retained on file in the office of the Division Director of Testing until the established appeal period is over.

IMPORTANT NOTE: If any of the **Special Test Accommodations** (AA) are gridded, make sure that **Limited English Proficient** (S) and/or **Disability Status** (V) has also been marked.

APPENDIX E

Special Test Accommodations Codes End-of-Course *English: Writing* Test

If a student utilizes a non-standard accommodation, the record of that score will be accompanied by a notation explaining that the score resulted from a non-standard administration. A student with an identified disability or identified as limited English proficient who has passed an SOL assessment utilizing any accommodation, including a non-standard accommodation, has passed for all purposes.

Limited English Proficient (LEP)	Students with Disabilities (SWD)	Answer document circle number	
•	•	1	flexible schedule (includes breaks during test and multiple test sessions)
•	•	2	group size
•	•	3	environmental modifications (e.g., special lighting, noise buffers, use of study carrel)
•	•	4	visual aids (e.g., magnifying glass, templates to show only one item at a time)
L	•	5	amplification equipment (e.g., hearing aid or auditory trainer)
L	•	6	large-print test
•	•	7	assistance with directions (i.e., simplifying or clarifying directions)
L	•	8	increased size of answer circles (e.g., enlarged copy of answer document)
L	•	9	Braille test / Braille answer document
•	•	10	reading in English of test items (except for English:RLR) If IEP calls for reading the English:RLR test aloud, see #14.
L	•	11	audiotape version of test items (except for English:RLR) If IEP calls for using audiotape version of the English:RLR test, see #15.
L	•	12	interpreting (e.g., signing, transliteration) test items (except for English:RLR) If IEP calls for interpreting the English:RLR, see #16.
L	•	13	communication board / pictorial presentation
		14	reading test items in English on the <i>English: RLR</i> <i>Non-standard</i>
		15	using audiotape version of the <i>English: RLR</i> <i>Non-standard</i>
		16	interpreting (e.g., signing, transliteration) test items on the <i>English: RLR</i> <i>Non-standard</i>
•	S	17	bilingual dictionary <i>Non-standard</i>
•	•	18	mark in test booklet or student responds verbally
		19	math aids (e.g., abacus, manipulatives)
L	•	20	large diameter pencil, special pencil, pencil grip
L	•	21	respond by word processor, typewriter, Braille
L	•	22	augmentative communication device
L	•	23	spelling aids: spelling checker, spelling dictionary
L	•	24	tape recorder (pre-writing only)
•	•	25	dictation in English to a scribe (direct writing sample only) <i>Non-standard</i>
		26	use of calculator or arithmetic tables (gr 3 math and gr 5 math computation) <i>Non-standard</i>
		27	other
			Circles A-B are not available for any test. DO NOT GRID.

Black squares in either column indicate accommodations that are not available for these tests. DO NOT GRID.

Unless also identified as LEP, these accommodations are not available for students with disabilities. DO NOT GRID.

Unless also identified as SWD, these accommodations are not available for LEP students. DO NOT GRID.

These accommodations are available as needed.

APPENDIX G

VIRGINIA DEPARTMENT OF EDUCATION STANDARDS OF LEARNING (SOL) ASSESSMENTS SUMMER 2004

SOL ENGLISH: WRITING TEST IRREGULARITY FORM

Fax this completed *Test Irregularity Form* to:
Virginia Department of Education, Division of Assessment and Reporting, 804-371-8978.

Division Name _____

Division and School Code (e.g., 056-0221) _____

School Name _____

Date _____

Grade	Multiple-Choice Form No	Prompt No.
EOC		

Directions to the Examiner and/or STC:

Describe the irregularity in the space below. Then the STC should forward this form to the DDOT for action. The STC must report testing irregularities to the DDOT within 24 hours of occurrence. **Include the name of each student involved in an irregularity that may require students to be retested with an alternate form.**

(PLEASE PRINT)

Description of Irregularity:

Action Taken (to be completed by DDOT):

Irregularity was forwarded to the Department of Education:

NO YES _____
(Date)

Signature of STC: _____

Date: _____

Signature of DDOT: _____

Date: _____

The DDOT will fax this form to the Virginia Department of Education, Division of Assessment and reporting, 804-371-8978.

This page may be photocopied.

SSID - Regular Testing Material (Orange)
SIDE 1

This section **MUST** be gridded before submission. Include an answer document for **ALL** students who will be completing a credit-bearing class that has an SOL test.

APPENDIX I

STANDARDS OF LEARNING (SOL) ASSESSMENTS ENGLISH: WRITING TEST SUMMER 2004

SOL ENGLISH: WRITING SPECIAL TEST FORMS CLASSROOM TRANSMITTAL DOCUMENT

*For use by the STC when distributing Special Test Forms Kits to the Examiners prior to testing,
and for use by the Examiner when returning Special Test Forms materials to the STC following testing.*

SCHOOL NAME: _____								
EXAMINER'S NAME: _____								
EOC	Regular Audio Kit	Braille Kit	Large- Print Kit	Kits Received		Kits Returned		Comments
				Quantity Received	EM'S Initials ¹	Quantity Returned	STC's Initials ²	

¹ Before test administration

² After test administration

After testing is completed, have each Examiner read the following statements and sign the "Examiner's Affidavit".

Examiner's Affidavit

1. I administered the Standards of Learning (SOL) Assessment *English: Writing* test according to the directions in the *Examiner's Manual*.
2. I kept all materials secure when in my possession.
3. I did not conduct any inappropriate test preparation activities with students that would invalidate their performance or give them an advantage over other students.
4. I have read the statements above and understand that I am certifying that they are true.

Examiners are to sign only AFTER reading statements 1 - 4 above.

Examiner's Signature

NOTES for STC:

1. At the close of administration, this completed page must be forwarded to your DDOT where it will be kept on file.
2. This page may be photocopied.

APPENDIX J

SOL EXAMINER'S/PROCTOR'S TEST BOOKLET TRANSMITTAL FORM/AFFIDAVIT

Summer 2004

English: Writing Test

Division Name: _____ **School:** _____

Grade Level: _____

School Test Coordinators: Use this form to sign test booklets in and out to Examiners and Proctors (if applicable) in your school. List each Examiner's/Proctor's name in the far-left column. Use the second column to list the test booklet subject and the number of booklets assigned to each Examiner. The Examiner should initial the "Out" column when receiving test booklets. The STC must initial the "In" column at the end of the day when test booklets are returned. Both the Examiner and STC should count or otherwise verify the number of booklets distributed before initialing this form.

EXAMINER'S/PROCTOR'S AFFIDAVIT: After testing is completed, have each Examiner read the following statements and sign the "Examiner's Affidavit" column certifying the following:

1. I administered the Standards of Learning (SOL) Assessments *English: Writing* test according to the directions in the *Examiner's Manual*.
2. I kept all materials secure when in my possession.
3. I did not conduct any inappropriate test preparation activities with students that would invalidate their performance or give them an undue advantage over others.
4. I have read the statements above and understand that I am certifying that they are true.

Examiner's Name (Proctor's Name)	Test Booklet Subject and Quantity	OUT — EXAMINER'S INITIALS	IN — STC'S INITIALS	EXAMINER'S/PROCTOR'S AFFIDAVIT
				Examiners and Proctors are to sign in this column only AFTER reading statements 1-4 above.

NOTES TO STC: 1. At the close of test administration, this completed page must be forwarded to your DDOT who will keep it on file.
2. This page may be photocopied.

SOL EXAMINER'S/PROCTOR'S WRITING PROMPT TRANSMITTAL FORM/AFFIDAVIT
Summer 2004
English: Writing Test
Division Name: _____ **School:** _____

EXAMINER'S CHECKLISTS

Activities During Test Administration

- ☐ 1. See that the demographic page of each student's answer document is completed correctly (Section 5.1).
- ☐ 2. On each day that a test session is conducted, check out secure test materials and answer documents from your STC (Section 5.3.1 and Section 5.4.1).
- ☐ 3. Administer the test in adherence to the directions for each component of the *English: Writing* test: (Section 5.3.2 for the multiple-choice component and Section 5.4.2 for the direct writing component).

Activities After Test Administration

- ☐ 1. Inspect students' answer documents for completeness, form number, damage, incomplete erasures, stray marks, etc., (Section 6.1).
- ☐ 2. Complete Section Z, Testing Status, (Section 6.2.13). This includes completing an answer document for each student who did not take either component of the SOL *English: Writing* test.
- ☐ 3. Complete Sections G, H, I, M, O, Q, R, S, T, U, V, W, Y, Z, and AA for all students who require special codes (Section 6.2).
- ☐ 4. Complete an SSID sheet (Section 6.3).
- ☐ 5. Prepare the bundle of answer documents (Section 6.4).
- ☐ 6. Return all test materials to your STC (Section 6.5).
- ☐ 7. Read and sign the *SOL Examiner's/Proctor's Test Booklet Transmittal Form/Affidavit* and *Examiner's/Proctor's Writing Prompt Transmittal Form/Affidavit* or the *SOL Special Test Forms Classroom Transmittal Document* (Section 6.6).
